## GENERAL INFORMATION

The federation was establd. by the senate in 1945 for the further devel. of postgrad. med. educn. in London. It was incorporated by royal charter in March 1947, and admitted as a sch. of the univ. in Dec. 1947. The purpose of the federation is to provide organized and correlated facilities for postgrad. teaching and res. for qualified med. and dent. practitioners from the U.K., the dominions, colonies and abroad, and to co-operate with univs., med. schs., the royal colls. and other bodies in their provisions for postgrad. med. educn. The federation provides : (i) trg. for prospective specialists, supplementing the work of the undergrad. med. and dent. schs. ; (ii) advanced revision for practising specialists ; (iii) instructn. for med. and dent. practitioners who, though not specialists, desire more detailed knowledge of any branch of med. or dent. ; (iv) continuing educn. of general practitioners.

The federation comprises at present : *federated institutes*—Postgrad. Med. Sch. of Lond. ; Inst. of Basic Med. Scis. ; Inst. of Cancer Res. ; Royal Cancer Hosp. ; Inst. of Cardiol. ; Inst. of Child Health ; Inst. of Dental Surg. ; Inst. of Dermatol. ; Inst. of Dis. of the Chest ; Inst. of Laryngol. & Otol. ; Inst. of Neurol. (Queen Square) ; Inst. of Obstet. & Gynæcol. ; Inst. of Ophthalmol. ; Inst. of Orthopæd. ; Inst. of Psychiatry ; Inst. of Urol.

Postgraduate educn. at the insts. and the hosps. associated with them includes full-time and pt.-time courses of advanced instructn., clin. clerkships, jr. and sr. resident hosp. appts. and opportunities for res. Provision is made for candidates for the MD, MS, MDS and PhD degrees, and courses are held for the academic postgrad. dipls.

in clin. pathol. and psychol. med. of the univ. In addn. most insts. hold conferences and symposia for consultants, and there are one-day clin. conferences for sr. registrars.

The federation organizes short courses for general med. and dent. practitioners and med. officers of local authorities at hosps. in the 4 London metropolitan regions and the Wessex region ; these incl. a number of courses consisting of half-day sessions, at undergrad. and postgrad. teaching hosps. The admin. of the federation is carried out by the central office, which maintains a bureau of information on postgrad. med. educn. in the U.K., and arranges annually a series of lectures on 'the scientific basis of med.'. Three lectures on 'the scientific basis of dent.' will again be held in 1961. These are designed for res. workers and specialists in trg., and are given by well-known experts from centres throughout the country.

The federation awards a limited number of travelling fellowships annually to medically or dentally qualified men and women who are holding appts. or are engaged in postgrad. study at undergrad. or postgrad. teaching hosps. or med. schs. of the Univ. of London. *See also* p. 825.

Following the institution of the national health service in July 1948, the federation appointed to the staff of the central office a regional adviser for postgrad. med. educn. in each of the 4 metropolitan regions to carry out the policy of the univ. and the federation in arranging postgrad. educn. for the practitioners, both specialist and general, in the region. The S.W. metropolitan region was divided into 2 in 1959, the more distant part being separated from the S.W. region and named the

Wessex region. In Oct. 1956 a regional adviser in postgrad. dental educn. was apptd. The regional advisers are members of the admin. staff of the central office (*see above*).

## THE YEAR 1959

**STUDENT NUMBERS** are shown below for each inst. The majority of postgrads. of the fed. (there are no undergrad. students) stay only 1 or 2 terms of the session at an inst. and very few remain over from one yr. to another, as they are encouraged to take hosp. appts. as part of their clin. trg. The numbers of full-time students given below for each inst. are those who attended full-time for 1 term or more of the yr. Pt.-time includes those who attended for less than 1 term, whether full-time or

## GENERAL INFORMATION

Owens Coll., named after a Manchester merchant who bequeathed £96,000 for its foundation, was opened in 1851. The Manchester Sch. of Med. was united with it in 1872. The charter of 1880 by which the Victoria Univ. was founded established a federal constitution and made Owens a constituent coll. of the univ. Subsequently Univ. Coll., Liverpool, and Yorkshire Coll., Leeds, were admitted as constituent colls. A new charter was issued on July 15, 1903, reconstituting the univ. under the name of the Victoria Univ. of Manchester and freeing it from liability to admit or remain in assocn. with any coll. other than Owens, and on June 24, 1904, the act for the incorporation of Owens Coll. with the univ. was passed. In 1905, on the establishment of the fac. of technol., the work of univ. standard at the Municipal Sch. (later Coll.) of Technol. was included in the univ. Under a charter granted in 1955 the Coll. of Technol. was establd. in 1956 as the Manchester Coll. of Sci. & Technol.

CONSTITUTION. The governing body of the univ. is the court of governors, whose exec. cttee. is the council; the senate, which consists of all the profs. of the univ., regulates academic matters. ## GENERAL INFORMATION

The univ. originated in the adult sch. establd. in 1798, the Mechanics' Inst. and the People's Coll., developments leading to the univ. extension lectures inaugurated in Nottingham in 1873—the first in the country—by the Univ. of Cambridge. An anon. gift of £10,000 in 1875 encouraged the corporation of Nottingham to erect a bldg., maintain it, and supply instrcn. The bldg., in Shakespeare St., was opened in 1881 as the Univ. Coll., Nottingham, incorporated by royal charter in 1903. There were at first 4 professorships (lit., phys., chem., nat. sci.).

A large estate some 3 miles W. of Nottingham, giving room for expansion, and new bldgs. com-

pleted in 1928, were provided by the first Lord Trent, after whom they are now named. In 1938 a supplemental charter reconstituted the governing body, providing for much wider representation. The coll. was relieved in 1945 of responsibility for evening and pt.-time educn. in the area ; in 1947 the Midland Agric. Coll. at Sutton Bonington became the coll. sch. of agric., and an inst. of educn. was founded. Since 1948, when the univ. charter was granted, 175 acres have been purchased, bringing the site to a total of 295 acres ; new bldgs., including 2 halls, a biol. bldg., the Portland bldg. containing refectories and students' amenities, a chem. bldg., part of the appl. sci.

bldg. and the educn. & soc. sci. bldg. have been erected, and 21 new professorships have been establ.

**CONSTITUTION.** The supreme governing body of the univ. is the court, which includes the officers, life members, reps. apptd. by local authorities, reps. of churches, members of parliament of the divisions of the city of Nottingham and certain E. Midland constituencies, *ex-officio* members, reps. of staff, students and convocation, of other instns. and socs., incl. schs. and colls., and other persons, 3 of whom are nominated by the lord president of the privy council. The chairman of court is the chancellor. Subject to control by the court, the council is the executive of the univ., responsible for the conduct of all the affairs of the univ. The council consists of the officers, 8 reps. apptd. by court, reps. of local authorities in the E. Midlands area, 7 senate members, 3 reps. apptd. annually by council and 1 rep. of convocation. It controls the management and admin. of all revenue and property through the bursar and his dept. Subject to control by the council, the senate, which is presided over by the vice-chancellor, regulates academic matters. Its other members are the deans, the profs., the dir. of the inst. of educn., indep. hds. of depts., the librarian, 6 elected members of the non-professorial staff and other reps. of fac. bds. as approved by court. To each fac. bd. are assigned specific powers, incl. that of expressing its opinion to senate on any matter relating to the fac.

**INCOME (1958-59).** Total income, £1,102,395. Percentages derived from principal sources: parliamentary grants, 68.3 per cent.; fees, 13.5 per cent.; local authority grants, 6.6 per cent.; endowments, donations and subs., 3.8 per cent.; other income, 7.8 per cent.

**FACULTIES AND DEANS.** *Agric. & hort.*, Prof. F. L. Milthorpe (*agric. bot.*); *appl. sci.*, Prof. J. E. Parton (*electr. engin.*); *arts*, Prof. J. S. Roskell (*hist.*); *educn.*, Prof. M. M. Lewis (*Inst. of Educn.*); *law & soc. scis.*, Prof. K. C. Edwards (*geog.*); *pure sci.*, Prof. D. D. Eley (*phys. chem.*).

**UNIVERSITY PRECINCT.** The univ. site is a park bounded by Univ. Boulevard, Clifton Boulevard, Derby Rd. and Beeston Lane. From a N.-S. ridge across the centre, the land falls to level areas on the E. & W. edges of the park. It is planned that the bldgs. of general use, incl. library and senate house, shall be grouped with the non-sci. facs. on the hill in the centre of the site. The pure and appl. sci. facs. will be on the level area to the E. Halls of residence, each with an associated group of tutors' houses, will stand on the central ridge itself and along the N. & W. perimeters. By concentrating the teaching bldgs. in groups, and by keeping the halls mainly on the edges of the site, it will be possible to preserve the park-like nature of the univ. precinct, with belts of tree-covered lawns and meadows lying between and around the groups of bldgs.

*The sch. of agric.*, comprising the fac. of agric. & hort., is located 10 miles from the univ., between Nottingham, Derby and Loughborough. *Address:* Univ. of Nottingham School of Agriculture, Sutton Bonington, Loughborough (tel.: Kegworth 386).

## GENERAL INFORMATION

[See below, p. 1169, under 'Publications', for pamphlets giving information about admission, residence, entrance scholps., expenses, exams., degrees, research, etc.]

There is evidence that there existed in Oxford in the early 12th century schools which by the end of that cent. had developed into a univ., a development perhaps helped by the fact that about the year 1167 English students were prevented from attending the Univ. of Paris. By about 1200 there were a number of masters lecturing on various subjects, incl. the recently recovered works of Aristotle, and in 1214 the univ. received its first recorded recognition as a body in a grant by the papal legate of certain privileges incl. reduction of the rents it paid. In the 13th cent. the coming of the friars, notably the dominicans

and franciscans, strengthened the univ., especially in the theological fac. In the same cent. the 3 first colls. (University, Balliol and Merton) were endowed, and 12 more were founded between 1300 and 1355. During the middle ages, however, the colls. were more or less reserved for graduate fellows (as All Souls still is), and the great majority of undergraduates and graduates lived in a large number of academic 'halls', or hostels, scattered about the town. The univ. at first had no buildings of its own, but made use of hired lecture rooms or of churches, especially St. Mary's church, until, in the 15th cent., the divinity sch.

was built. From the 13th cent. onwards the position of the univ. was strengthened by a succession of charters from the crown, but during the Reformation it suffered from the suppression of the monastic colls. In 1571 the univ. was incorporated by act of parliament, and much reorganization followed; in particular, the undergraduates now came to be included in the colls. Professorships were first endowed in the early 16th cent., and increased notably in the early 17th cent. The important code of statutes introduced in 1636 by Archbishop Laud, chancellor of the univ., remained in force, with certain modifications, for about 150 years. During the civil war the univ. supported the king, who made Oxford his headquarters, and parliament met there. The later 17th cent. saw an increase of scientific studies at Oxford; and towards the end of the 18th cent. the standard of studies rose as written exams. gradually took the place of oral exams. The constitution was revised, as a result of the work of royal commissions, in 1854 and in 1877: coll. statutes were re-made and studies reorganized, and the professoriate was increased and re-endowed. In 1871 religious tests were abolished, and the MA degree was thrown open to non-conformists; and since 1920 women have been admitted to membership of the univ. under the same conditions as men as regards standing, exams., courses of study and fees, and residence. As a result of the work of a further royal commission, the existing constitutional arrangements were adapted in 1923 to meet the needs of the times, one result being that the univ. from then onward received an annual Treasury grant.

**CONSTITUTION.** The central policy-forming and executive body in the univ. is the *hebdomadal council*, comprising the chancellor (a non-resident member, elected for life by convocation), the vice-chancellor (a coll. head nominated by the chancellor annually, usually holding office for 2 yrs., and *de facto* chairman of the hebdomadal council), the immediate ex-vice-chancellor (for one yr. after the expiry of his term of office) or one of the pro-vice-chancellors who has not held the office of vice-chancellor, the 2 proctors (disciplinary officers, elected annually by colls. in rotation), the representative of the women's colls. and 18 members elected by congregation (*see below*).

Other considerable powers and responsibilities are held by the *general board of the facs.*, which comprises the vice-chancellor, the proctors, the representative of the women's colls. and reps. of the hebdomadal council, the curators of the univ. chest, and the several facs.—theol., law, med., literæ humaniores, mod. hist., English lang. & lit., mediæv. & mod. langs., oriental studies, physical scis. (incl. maths.), biological scis., soc. studies, anthropol. & geog., music, agric. & for., and psychol. studies—and which exercises a general supervision over the teaching (other than coll. teaching), res. and exams. of the univ. (executive organization being in the hands of the several bds. of the facs., the bd. in each case

being composed in part of *ex-officio* and in part of elected members); and by the *curators of the univ. chest*, who are responsible for the detailed financial administration of the univ. and for the preparation of accounts and estimates.

The hebdomadal council submits proposals for the amendment of the statutes (which govern the working of the univ.), and measures for the conduct of business beyond the scope of its own authority, to the *congregation of the univ.*, which can adopt, reject, or amend them; congregation comprises mainly the teaching and sr. admin. staff of the univ. Legislation carried by the vote of less than two-thirds of the members of congregation present and voting is referred to, and can be carried or postponed or rejected by *convocation*, a larger body comprising all holders of the MA and certain sr. degrees who have their names on the univ. books; convocation also confers degrees by dipl. and hon. degrees, and authorizes the affixing of the univ. seal when necessary.

The COLLEGES are corporate bodies distinct from the univ.; they manage their own property, elect their own officers, have their own bldgs. and facilities (usually including residential accomm., dining-hall, chapel, library, sr. and jr. common-rooms, and playing-fields) and control the selection and admission of their own undergraduates; and the proctors have no power within their walls. They are, however, subject to the univ. statutes in certain connexions, notably presentation and audit of accounts, contributions for univ. purposes and elections to professorial fellowships: and all persons who are members of colls. are also members of the univ. and so come under the univ.'s rules. Teaching is carried out partly by way of lectures and classes held by univ. profs., readers, lectrs. and demrs., partly by way of individual tuition given by coll. tutors and lectrs. (most of whom hold, in addition to their coll. posts, pt.-time univ. lectureships and are referred to on pp. 1131-1144 as Common University Fund lectrs.).

**ST. CATHERINE'S COLLEGE.** A new coll., St. Catherine's College, will be opened in 1962 (master: A. L. C. Bullock, MA; bursar: D. J. Wenden, MC, MA). St. Catherine's Society will then disappear and a new non-resident postgrad. society called Linacre House will be opened.

**INCOME.** The income of the univ. (not incl. the income of the separate colls.) for the year 1958-59 was £3,444,745, made up as follows: endowments, £370,306 (10.7 per cent.); parliamentary grants, £2,265,309 (65.8 per cent.); fees, £284,709 (8.3 per cent.); payments for res., £379,228 (11 per cent.); contributions from colleges, £118,263 (3.4 per cent.); other income, £26,930 (0.8 per cent.).

**FACULTIES AND DEANS.** For facs. *see under* 'Constitution', *above*. There are no deans of facs.; enquiries about admission should be addressed to the head clerk, Univ. Registry, Oxford.

**UNIVERSITY BUILDINGS.** Most of the individual colls. and halls of the univ. are centrally situated, together with the major bldgs. serving the univ. as a whole (e.g. Bodleian library, Sheldonian theatre, Ashmolean museum, exam. schools); sci. depts. and labs. are mostly congregated in the science area, which is adjacent to the univ. parks and N. of central Oxford.

Bldgs. completed in recent yrs. incl. provision for physiol., for., bot., agric., geol., mineral., inorg. & org. chem., human anat., metall., an extension of the Ashmolean museum, a gallery for casts, a hist. fac. libr., and Nuffield Coll.

Devels. taking place at present or in the near future incl. bldgs. for the depts. of engin., biochem., pharmacol., phys., and geol., an oriental inst., an Engl. fac. libr., a law libr., an inst. of stats., and a bldg. for the new coll., St. Catherine's Coll. (This does not incl. any reference to bldgs. which the colls. may be putting in hand.)

**LIBRARIES.** The principal library of the univ. is the Bodleian library (founded in 1602 by Sir Thomas Bodley), with its dependent libraries (Radcliffe sci. libr., Rhodes House libr., which deals with the hist. of the British Commonwealth and the U.S.A., and Indian Inst. libr.). It is entitled, under the Copyright Act, 1911, to a copy of every book published in Gt. Britain & Ireland, and now contains about 2,141,000 books and 50,000 MSS. Persons other than members of the univ. may be allowed to read in the libr. in certain circumstances at the discretion of the librarian. The *Visitors' Guide* (on sale at the libr.) gives a short hist. The chief books relating to it are: Macray, W. D., *Annals of the Bodleian Library* (Clar. Press, 1890, 35s.); Craster, Sir H. E. E., *History of the Bodleian Library, 1845-1945* (Clar. Press, 1952, 42s.); *The Bodleian Library Record* (3s. 6d. per number, obtainable from the librarian).

Two other important libraries are those of the Taylor Institution (about 160,000 books on mod. langs. & lit., incl. the chief philological, lit. and historical works in the principal European langs.) and the Ashmolean museum (about 83,000 books on classics, anc. hist., archæol., art and near eastern studies). In addition, there are some 46 depts. and fac. libraries containing altogether about 350,000 books of sp. interest to their particular students.

Apart from these univ. libraries, each coll. has its own library, use of which is normally restricted to members of the coll. Two libraries at All Souls Coll. (Codrington libr. of law and mod. hist. and Brand libr. of pol. econ. & sci.) are, however, open to any recommended member of the univ.

**LABORATORIES, ETC.** The univ. has labs. of inorg. chem., agric. (with field stn.), geol. and mineral., zool. and compar. anat., phys. (Clarendon lab.), engin., metall., physiol., biochem., human anat., pharmacol., org. chem. (Dyson Perrins lab.), phys. chem., for. (Imperial Forestry Inst.), bot., pathol., and computing, a res. lab.

for archæol. and the hist. of art, an observatory, and a botanic garden.

**MUSEUMS.** The *Ashmolean Museum* (tel.: 57522) (keeper—Sir Karl T. Parker, [Oriol], CBE, PhD Zür., MA, FBA), Beaumont St., contains one of the best collections of European and near eastern archæol. in the world, the univ.'s collection of coins, a fine collection of paintings, old master drawings, water-colours, Italian maiolica and bronzes, English silver, and other objects of appl. art. The *Museum of Eastern Art* contains the combined far eastern collections of the Ashmolean Museum and the Indian Inst., including a very extensive range of early and late Chinese porcelain, a fine collection of Chinese bronzes, and comprehensive ranges of Islamic pottery, Japanese craft-work and Gandharan sculpture.

Full details may be obtained from Appendix II to this volume. Advice on *special* problems affecting overseas students may be sought from the actg. adviser to overseas students, Univ. Registry, Oxford.

Incorporation into the univ. is open under certain conditions to undergrads. and grads. of the univs. of Cambridge and Dublin ; incorporation means admission to the status (and degrees if applicable) corresponding at Oxford to that held at Cambridge or Dublin. Notice of intention to incorporate as an undergrad. must be sent to the registrar through the head of a coll., hall, or society. Incorporation as a grad. (for which adequate reasons must be provided, e.g. obtaining of an educnl. post in the univ., or intention to pursue a definite course of study in the univ.) is limited to holders of the BA, MA, BD, or DD of Cambridge or Dublin, of the LLB, LL.D, MB, MD, MChir of Cambridge, and, under certain conditions, of the

Certain fac. bds. will admit to this status only those who are members of the teaching staff of a univ. Such students are not members of the univ., but are placed under a dir. of studies and are entitled to attend lectures in univ. bldgs., to use the univ. libraries and to work in any univ. dept. or instn. subject to the agreement of the hd. of that dept. or instn. Applicn. forms for this status may be obtained from the sec. of faculties, University Registry, Oxford. The applicn. must be accompanied by evidence of degrees previously obtained, a statement of the proposed subject of study and a cert. from a prof. or hd. of a dept. of the Univ. of Oxford supporting the applicn. Admission fee of £5, and terminal fees of from £10 to £23, are payable.

**RHODES SCHOLARSHIPS** were founded in 1902 under the will of the late Cecil John Rhodes. Their value is £750 a yr. each. They are tenable for 2 yrs. in the first instance at Oxford Univ. ; and for a third, if it is eminently in the interests of a scholar's immediate studies and future career, either in Oxford or, in rare cases, elsewhere, but not in the country of the scholar's origin.

In his will, Mr. Rhodes expressed the wish that 'in the election of a student to a scholarship regard shall be had to (1) his literary and scholastic attainments ; (2) his fondness for and success in manly outdoor sports, such as cricket, football, and the like ; (3) his qualities of manhood, truth, courage, devotion to duty, sympathy for and protection of the weak, kindness, unselfishness, and fellowship ; and (4) his exhibition during school-days of moral force of character, and of instincts to lead and to take an interest in his school-mates'. The conditions of the competition in each country or community are fixed from time to time by the trustees.

A min. of 36 scholps. is assigned annually to the British Commonwealth as follows : Quebec (2) ; Ontario (2) ; the other provinces of Canada (1 each) ; the states of the Australian commonwealth (1 each) ; the dominion of New Zealand (2) ; in South Africa, the province of Natal (1), the Transvaal (1), the Orange Free State (1), Cape Province (1), S.A. 32 scholps. are assigned annually to the U.S.A. —4 to each of 8 districts, awarded among candidates sent forward from each state, of which there are normally six in the district. *The American Oxonian*, the official magazine of the Alumni Asscn. of American Rhodes Scholars, is published quarterly.

**FIRST DEGREES.** BA—3 yrs., or, in certain cases, 4 yrs. This is the first degree in both arts and sci. subjs. (The BSc degree at Oxford is a postgrad. degree—see 'Higher Degrees', below.)

A candidate for the degree of BA must reside at the univ. as a matriculated member for 9 terms, and must be successful both in the first public exam. and in the second public exam.

The subjs. of the first public exam. are: honour classical moderations; honour maths. moderations; honour sci. moderations; honour theol. moderations; honour biochem. moderations; law moderations; prelim. nat. sci.;

prelim. geog.; prelim. mod. langs.; prelim. mod. hist.; prelim. English; prelim. oriental studies; prelim. classical (Greek & Latin) langs.; prelim. theol.; prelim. philos., pol. & econ.; prelim. music; and prelim. psychol., philos. & physiol. Every candidate for the degree of BA must be successful in one of these subjs.; in honour moderations the lists of successful candidates are divided into classes.

The subjs. of the second public exam. consist of a pass sch. and a number of honour schs. Every candidate for a pass BA degree must be successful in 3 of a large variety of subjs., one of the 3 being a lang. other than English. Every candidate for an hon. BA degree must not have exceeded a certain number of terms from matric. and must have obtained hon. in one of the following: literæ humaniores (philos. & anc. hist.); maths.; nat. sci. (phys., chem., physiol., zool., bot., geol., biochem., metall., or engin.); jurispr.; mod. hist.; theol.; oriental studies (Sanskrit, Arabic, Hebrew, Persian, Egyptian or Chinese); Engl. lang. & lit.; mod. langs. (French, German, Italian, Spanish, Russian, mediæv. & mod. Greek, or Portuguese); philos., pol., and econ.; geog.; agric.; for.; psychol., philos. & physiol.; and music. The lists of successful candidates in hon. exams. are divided into 4, or in some cases 3, classes.

'Transfer course.' Under arrangements made with Imperial Chemical Industries Ltd., it is possible for boys who have studied mainly arts subjs. at sch., but who feel that their main interest may after all be in sci., to spend a yr. in London doing an intensive course in chem., maths. and phys. before coming to Oxford. At the end of the course they can decide whether to start reading for a degree in sci. or whether to return to their original subj. Further information about this 'transfer course' may be obtained from the student's coll.

Under certain conditions, grads. of other univs. may be admitted to the status of 'senior student' and obtain exemption from the first public exam., as well as remission of 3 terms of the necessary residence (see Appendix II).

**BM BCh**—min. 6 yrs. This is the first degree awarded by the univ. in med., though (with very few exceptions) it may not be awarded to persons who have not first taken the BA degree, which will normally have been obtained after the first 3 yrs. by gaining hon. in certain of the subjs. being studied concurrently for the BM. The last 3 yrs. of the course are devoted to clin. studies, and may be spent either in the Oxford clin. sch. or in an approved clin. sch. elsewhere. Further information from the sec. of the Med. Sch., Osler House, 43 Woodstock Rd., Oxford.

**HIGHER DEGREES.** MA—open only to Oxford BAs, and awarded without further exam. after 7 yrs. from matric. on payment of certain fees.

**BPhil**—min. 1 yr.'s study. This degree is granted after an exam. in philos. or Greek and Latin langs. & lit. or pol. or econ. or European

hist. or Commonwealth & American hist. of the same type as that in a final honour sch., but is open only to persons who either have previously obtained 1st or 2nd class hon. in certain prescribed honour schs. at Oxford, or are grads. of Oxford or of another univ. who have received leave of the appropriate fac. bd. Courses of instructn. in the subjs. of the exams. are provided. A thesis may be offered in addition to the written work. Residence for 6 terms is required.

**BSc and BLitt**—min. 1 yr.'s study. These degrees are granted upon the satisfactory completion of an approved course of sp. study or res., pursued under supervision and for the most part at Oxford, and of at least 6 terms' residence. Applicn. to enter upon such a course may be made by any person who produces sufficient evidence of his ability and either is a member of the univ. who has passed the exams. for the degree of BA, or has taken an approved degree at an approved univ., or is held by the fac. bd. concerned to be fully qualified to engage in res., or (for the BLitt only) has obtained an Oxford dipl. with distinction. Applicn. must in all cases be made to the sec. of faculties through an officer of the society to which the candidate belongs or desires to belong. A candidate for the BLitt must first undergo a probationary period of trg. in res. methods and then do a sp. piece of res. work and write a thesis, and may be required to pass a written exam. For the BSc, which is confined to the study of med., maths., nat. sci., anthropol., geog., agric., for. and psychol., no probationary period is prescribed.

**BMus**—min. 1 yr. This degree is open only to those who have been admitted to the degree of BA with 1st or 2nd class hon. in music. Candidates must pass a written exam. and submit a musical exercise for approval.

**DPhil**—min. 2 yrs. (except that for a candidate who is a BPhil the min. is 1 yr.). This is a higher res. degree in letters or sci. presupposing prelim. trg. in res., or outstanding ability, and requiring that the candidate's work shall result in 'an original contribution to knowledge deserving publication'. It is usually required that the applicant should either have obtained the Oxford degree of BLitt or BSc or have served an apprenticeship in res. approximately equal in value to that implied by those degrees. A grad. of another univ. may be admitted if he can produce evidence of special fitness in a manner satisfactory to the bd. of the fac. concerned.

**BCL**—2 yrs. The exam. is open either to BAs of the univ. or, under certain conditions, to grads. of other univs. The subjs. are Roman & Engl. law, together with 2 of the following sp. subjs.: mod. jurisp., condictiones, evidence, criminal law & penology, pub. internat. law, Roman-Dutch law, legal hist., admin. law. Courses of instructn. in the subjs. of the exam. are provided.

**BD**—2 yrs. This degree is open to candidates over 21 yrs. of age who have passed a qualifying exam. in Christian theol., pursued a course of study therein, and submitted a thesis of sufficient merit in some branch of the subj. No candidate

may present a thesis until he has passed the qualifying exam., which is open to Oxford MAs, to persons who have, not less than 5 terms previously, passed all exams. for the Oxford BA, and, under certain conditions, to grads. of other univs. 1st or 2nd class hon. in the final honour sch. of theol. exempts from the qualifying exam.

The delegacy has full-time tutors and lectrs. resident in the areas covered by the univ.'s extra-mural activities. On the recommendation of the delegacy, adult students may be exempted from the univ. normal entrance requirements.

See also 'Ruskin College' and 'Catholic Workers' College' (p. 1164).

**VACATION COURSES.** Courses are held by the dept. of educn. (15 Norham Gardens; tel.: 58631) usually in July and August, either as short courses for sp. groups, or as refresher courses for teachers of experience, suitable also as an introduction to the more general study of educn. questions (open to men and women).

A summer school for young business executives is also held, originating in the intention to provide a course for business executives aged 27-33 marked out by their firms as likely to reach sr. managerial positions. The univ. appts. cttee. (see below) is responsible to the univ. for the scheme (but not for the contents of the courses nor for the method of teaching).

Several vacation courses are held by the delegacy for extra-mural studies (see above). These include (a) a summer sch. mainly for W.E.A. students, and (b) a 6-week summer sch. for overseas and British students (grad. or sr. undergrad.) in some aspect of English hist. and lit.

The delegacy also supervises the exam. in military hist., which is part of the pass sch.

There is no naval formation in the univ.

**STUDENT HEALTH SERVICE.** There is no comprehensive health service administered by the univ. Most (if not all) colls., however, have arrangements with a doctor for the treatment of members of the coll. and with a nurse to attend at stated times for treatment of minor ailments. In addition, a mass-radiography scheme is organized for the benefit of all members and staff of the univ.

**STUDENTS' REPRESENTATIVE COUNCIL.** There is no students' rep. council for the univ. Within each coll., however, there is an informal student organization concerned with matters (other than academic) of common interest to undergrad. members of the coll.

## CONSTITUENT INSTITUTION

NATIONAL INSTITUTE FOR RESEARCH IN DAIRY-  
 ING, Shinfield, nr. Reading (tel. : Reading 83103),  
 establd. by Ministry of Agric. & Fisheries in 1912,  
 forms part of univ. (Dir.—Prof. R. G. Baskett,  
 OBE, MSc, FRIC). It is governed by a bd.

consisting of reps. of Ministries of Agric. and  
 Health, Royal Agric. Soc. of England, British  
 Dairy Farmers' Assocn., Nat. Farmers' Union,  
 etc. See also pp. 1173-1174.

## GENERAL INFORMATION

A univ. extension coll. was opened at Reading  
 in 1892 ; it was based upon the local Oxford Univ.  
 extension centre and the local schs. of sci. and art,  
 and derived its first impetus largely from Christ

Church, Oxford. In 1902 it established a claim  
 to a state grant as a univ. coll. In 1904 and 1905  
 it received endowments of land and money from  
 the Palmer family. Wantage Hall, endowed by

Lady Wantage, was built in 1908 as a residence for men students, the declared policy of the council being to make residence in a hall the rule and not the exception. An endowment fund of £200,000 was subscribed in 1911 by the benefactors already mentioned. The univ. was established by royal charter on March 17, 1926.

Various developments call for special notice. One is the establishment, in connexion with the coll. and univ., of the Natnl. Inst. for Res. in Dairying. Another is the bldg. and endowment of the library, the costs of which were defrayed by Mr. Alfred Palmer and members of his family; the bldg. constitutes a memorial to the late Rt. Hon. George William Palmer, one of the chief benefactors of the coll. Residential accomm. has been increased, and the univ. now has 7 halls of residence, 3 for men and 4 for women. Further additions are being planned.

The univ. has steadily grown. Because of the inadequacy of its present site, it acquired in 1947 the freehold of the Whiteknights park estate of nearly 300 acres of parkland (approx. one mile from centre of Reading), to which it is hoped ultimately to transfer the whole univ. At present 2 new bldgs. in the park are in use: the fac. of letters, opened in 1957 by H.M. the Queen, accompanied by H.R.H. the Duke of Edinburgh; and the dept. of phys., opened in March 1960 by Sir George Thomson and named the J. J. Thomson Physical Lab.

**CONSTITUTION.** The supreme governing body of the univ. is the court, presided over by the chancellor. The executive body is the council, which is composed of academic and lay members, and elects its own chairman. The senate, which consists of all profs. of the univ. and 3 elected members of the academic staff, regulates academic matters; the vice-chancellor is chairman. Facs. are controlled by their own bds., and schs. by their own cttees., subj. to the authority of senate and council.

## GENERAL INFORMATION

The Sheffield Sch. of Med., founded 1828, Firth Coll., established as a coll. of arts and sci. in 1879, and the Sheffield Technical Sch., opened in 1886, were united in 1897 to form Univ. Coll., Sheffield. In 1905 the coll. became, by royal charter, the Univ. of Sheffield.

Originally dependent almost entirely on local contributions, the univ. developed slowly in its early yrs., with the facs. of engin. and metall. in particular benefiting from their close connexion with local industry, but with a balance of student numbers largely in favour of the arts and pure scis. In recent yrs. Treasury grants have made possible all-round expansion, and since the end of the war 13 new depts. have been establd., 26 chairs created, 5 major bldgs. and considerable extensions completed, and extensive sites acquired. Particular attention has been paid to facilities for postgrad. study in the various branches of engin. and metallurgy, in 2 of which—glass and refractories technol.—Sheffield has the only univ. teaching depts. in the country.

**CONSTITUTION.** The court, the governing body of the univ., consists of some 470 reps. of educnl. and financial interests, who receive an annual report and statement of accounts and sanction changes in ordinances. Executive control rests with the council, composed of the officers of the univ. and reps. apptd. by court, senate, the non-professorial staff, local authorities and hosps., and convocation. The senate, comprising the profs. of the univ. and certain other academic persons, controls all academic affairs and reports to the council on academic matters requiring action by the council. Seven facs. (*see below*), each under its own bd., are responsible to the senate for the teaching in their various depts. The dept. of extra-mural studies and inst. of educn. report direct to the senate and the council through their bds.

The chancellor is the chief officer of the univ. The vice-chancellor is the principal academic officer, and is, *ex officio*, chairman of senate.

**INCOME (1958-59).** Endowments, £52,096; donations and subscriptions, £47,934; grants

from local authorities, £39,172; parliamentary grants, £974,518; students' fees, £167,780; contributions for services rendered, £132,228; other income, £3644.

**FACULTIES AND DEANS.** *Arts* (incl. archit.), Prof. D. R. Cousin (philos.); *econ. & soc. studies*, Prof. J. C. Gilbert (econ.); *engin.* (depts. of civ., electr. and mech. engin., appl. mechs., mining, fuel technol. & chem. engin., glass technol.), Prof. M. W. Thring (chem. engin.); *law*, Prof. O. R. Marshall; *med.* (incl. dental studies), J. G. McCrie; *metall.*, Prof. J. White (refractories technol.); *pure sci.*, Prof. D. G. Northcott (pure maths.).

**UNIVERSITY PRECINCT.** The teaching and res. bldgs. of the facs. of arts, econ. & soc. studies, law, med. and pure sci., the sch. of soc. studies, library, staff club house, students' union and admin. offices are grouped in the Western Bank area, in close proximity to 4 of the teaching hosps. A short distance from this main group lies the St. George's Sq. block of engin. and metall. depts., and on the other side of Western Bank, linked to it by new playing-fields, the bldgs. of the dept. of glass technol. Sites now being developed, both in the neighbourhood of these groups of bldgs. and in a pleasant residential suburb about a mile away, in which the halls of residence for students are situated, will result in compact univ. teaching and residential quarters.

**LIBRARY.** Arts, econ. & soc. studies, law, med., pure sci.: 223,943 vols. and pamphlets; appl. sci.: 21,887 vols. and pamphlets. Also sp. glass technol., inst. of educn., and deptl. collections.

**LABORATORIES, ETC.** Equipment for advanced study and res. in all depts. Sp. provision for engin. in all branches, incl. mining, and fuel technol. & chem. engin.; also for glass technol. and metall., the equipment for the latter incl. an experimental-scale steel works. Electronic computation lab.; Edge Mount radio-astron. stn. Alfred Denny Museum (zool.).

## GENERAL INFORMATION

The univ. originated in the Hartley Instn. which was establd. from a bequest by H. R. Hartley, son of a Southampton wine merchant, who died in 1850. The instn., opened in 1862, was incorporated in 1902 under a scheme of the Bd. of Educn. as the Hartley Univ. Coll. at Southampton, and from that date until the establt. of the univ. students read for the external degrees of London Univ. The coll. was accomm. in the premises in the High St. built for the instn. until 1919 when it moved to the present site at Highfield, 2 mls. from the centre of the town. In 1953 the coll. was merged in the Univ. of Southampton, constituted by royal charter in 1952.

## GENERAL INFORMATION

The idea of a Univ. Coll. of Sussex was first discussed in 1911, when it was suggested that such a coll. should be establd. at Brighton and recognized as a constituent part of the Univ. of London. An appeal for funds was launched and about £2800 was collected, but on the outbreak of the first world war the proposal fell into abeyance. It was not revived until after the second world war, when the rapid development of the Brighton Tech. Coll. gave rise to a proposal that that institution should be developed into a univ. coll. This idea was not favourably received by the Univ. Grants Cttee. and the Ministry of Educn., and in 1948 it was agreed by the Brighton Borough Council that the ultimate aim should be to have a separate univ. institution. No further action was taken, however, until 1955, by which time national needs were pointing to the necessity for a considerable expansion of univ. educn. during the decade beginning 1961. In 1956, as the result of an approach by the Brighton Borough Council to the other local authorities in Sussex, a joint cttee. was formed to take further action to found a univ. coll. An approach was made to the Univ. Grants Cttee., which, after satisfying itself on various aspects of this proposal, finally, on July 1, 1958, gave its formal approval to the establishment of the coll.

The joint cttee. was then reconstituted as a provisional coll. council, and the coll. obtained interim legal status when, in May 1959, it was registered under the Companies Act as a Limited Liability Company, the members of the council being the dirs. of the company.

**CONSTITUTION.** The Univ. Grants Cttee. agreed with the joint cttee.'s desire that the coll. should attempt a new approach to univ. studies, and to make this possible it approved that the coll. should award its own degrees from the outset. In order to guarantee satisfactory academic standards, it was decided to appoint an academic advisory cttee., consisting of 5 or 6 persons of high academic standing, which would have the duty of advising on the range and organization of studies, the maintenance of standards, the appt. of the principal and the sr. members of staff, and the contents of a royal charter of incorporation. A petition for a charter is to be presented before the end of 1960. The draft of the charter provides that the institution will be incorporated as a univ. (not as a univ. coll.) and that the academic advisory cttee., with the above-mentioned duties, will be an integral part of the univ.'s constitution for a limited period. There will be a court, council and

\* Associate Member of the Association of Universities of the British Commonwealth.

senate, and the usual univ. officers, but the powers of the court will be limited to the election of the chancellor, the pro-chancellors, the treasurer and some of the members of council.

**INCOME.** The 5 local educn. authorities in Sussex have promised to contribute between them an annual sum of about £40,000 towards the recurrent expenditure of the univ. The Univ. Grants Cttee. has undertaken to meet the remaining essential recurrent expenditure from 1962-63. The Univ. Grants Cttee. has also set aside £1½ million to provide bldgs. (other than student residences) for the univ. during the period 1960-1963. A public appeal is to be launched at the end of 1960 to obtain funds primarily for student residences.

**ADMISSION.** *See* Appendix II.

**STUDIES.** At the outset, the univ. will have 2 facs. . arts and sci. Arts studies leading to a BA degree (taking 3 yrs.) will be organized in 3 schools—English studies, European studies and social studies—the intention being to ensure that the necessary specialization is accompanied by a desirable breadth of approach, through the co-operation of different subject specialists in a common degree course. BSc degree studies will

include pure maths., appl. maths., phys., chem. and biol. A student taking a first honrs. degree in sci. will be required to study 3 of these subjs., together with some hist. of sci. or soc. sci., for 3 yrs. ; a limited number of students will be able to specialize in one of the subjs. for an extra yr. and obtain a second honrs. degree. A course (taking 3 yrs.) leading to a degree in engin. sci. (without specialization) will also be offered.

**STUDENTS.** The first students (about 50) will be accepted in Oct. 1961, in arts only. Students in arts and sci. (about 200 p.a. each) will be accepted from Oct. 1962.

**SITE AND BUILDINGS.** Work on the first 2 bldgs.—Coll. House (the social and recreational centre), and the phys. bldg.—will commence in Oct. 1960. These bldgs. should be completed by Oct. 1962. Four more bldgs.—chem., engin., arts and library—should be completed by Oct. 1963. In 1961-62, teaching will be carried on in rented premises. All the permanent bldgs. will be erected on the univ. site of about 200 acres at Falmer, between Brighton and Lewes. Of this, 150 acres have been leased to the univ. for 999 years by the Brighton Corp., and the remainder has been purchased.

## GENERAL INFORMATION

The univ. was founded by charter in 1893. This organized 3 univ. colls. already existing in Wales into a unified system for the purpose of degree exams. As the result of an enquiry held by a royal commission in 1916-18, a supplemental charter was granted to the univ. in 1920, which introduced many changes, the most important being the establt. of a 4th constituent coll. at Swansea. A further supplemental charter was granted in 1932 providing *inter alia* for the institution of the Welsh National Sch. of Medicine as a sch. of the univ. At the same time a change came about in the organization of theol. teaching. Theol. had up to this point been taught only in associated theol. colls. The amendment permitted the establt. of schs. of theol., which would combine the teaching resources of univ. colls. and of theol. instns. in univ. centres. Two schools have come into being, at Bangor and at Cardiff; but theol. colls. operating on their own still survive and continue to receive recognition.

CONSTITUTION. The supreme governing and legislative body of the univ. is the univ. court, an assembly consisting of reps. apptd. by local authorities, by the constituent and other colls. and by various instns. connected with educn. and scholarship. The univ. council is the executive body of the univ., and the academic bd. advises the council and court on all academic matters.

GRANT INCOME (1958-59), £1,768,470 (Treasury, £1,692,940; county councils and county borough councils, £75,530).

FACULTIES. Facs. of *arts* and *sci.* exist in each of the constituent colls. and operate within the colls. The following facs. do not exist separately in the colls. but only as univ. bodies, functioning on a univ. level—*archit.*, *educn.*, *law*, *music*, *rural sci.* (consisting mainly of profs. of agric. and allied subjs.), *technol.*, *theol.* (consisting mainly of recognized teachers of theol.), *med.* (the senate of the Welsh Natnl. Sch. of Med.). The academic bd. is constituted mainly of single reps. coming from all the facs.

LIBRARIES. See entries for constituent colls. and Welsh Natnl. Sch. of Med., *below*.

The admin. offices, assembly hall, some common rooms and staff rooms are accomm. in a mansion in Singleton Park, presented, together with about 46 acres of land surrounding it and 15 acres for playing-fields, by the corporation of Swansea, which also gave £50,000 towards the cost of sci. bldgs. ## GENERAL INFORMATION

The Univ. of Aberdeen derives its origin and endowments from 2 sep., and for a long time indep., foundations. One of these was the univ. founded by William Elphinstone, Bishop of Aberdeen, under the authority of a papal bull obtained in 1494-95 at the instance of King James IV; within which univ. was afterwards founded, in 1505, the Coll. of St. Mary, subsequently called King's Coll. From this royal patronage, it was held to stand in a specially close relation to the sovereign, and is accordingly styled in acts of the Scots parliament—'our sovereign lord his college

and university'. The other foundation was that of Marischal Coll. founded in 1593 by George Keith, fifth earl marischal, under a charter ratified by act of the Scots parliament. Both the above foundations were reconstituted in 1860 as 'The University of Aberdeen', which is incorporated under the Universities (Scotland) Act of 1889.

CONSTITUTION. The univ. court, which controls the finance, property and general admin. of the univ., was constituted a corporate body by the

Universities (Scotland) Act, 1889. The members of the court are the rector (president), the principal, the lord provost of Aberdeen (all *ex officio*), an assessor appointed by the chancellor, one appointed by the rector, one appointed by the town council, 4 elected by the general council of the univ. and 4 elected by the senatus academicus. The senatus academicus is charged with the general supervision of teaching and discipline, and is composed of the principal and all profs. of the univ. (*ex officio*) together with certain non-professional members, the no. of which is controlled by ordinance. The general council consists of the chancellor, the members of the univ. court, profs. and all grads. of the univ., as well as readers and lectrs. of 1 yr.'s standing. The five facs. (arts, sci., div., law and med.) consist of (a) profs. (who are allocated to the several facs. by ordinance), and (b) indep. readers and lectrs. and certain other readers and lectrs., those under (b) being apptd. by rota for 2 consecutive yrs. The chancellor is appointed for life by the general council; the rector is apptd. for 3 yrs. by the matriculated students of the univ., voting through procurators in four 'nations'; the vice-chancellor is appointed by the chancellor for the purpose, in the absence of the chancellor, of discharging his office in so far as regards the conferring of degrees.

INCOME (1958-59). Total income, £1,002,535 (govt. grants, 80 per cent.; fees, 9 per cent.; endowments, 4 per cent.; other sources, 7 per cent.).

## GENERAL INFORMATION

The Univ. of Edinburgh was originally 'the Town's College', founded in 1583 by the town council of Edinburgh, under general powers granted by a charter of King James VI, dated April 14, 1582. From the first the coll. possessed the privilege of conferring degrees. This privilege was ratified by the 'act of confirmation', passed in 1621, which secured to the 'College of James VI' (as it had come to be called) all the rights, immunities and privileges enjoyed by the other univs. of Scotland. Gradually, in acts of the general assembly, of the town council, and of parliament, the 'College of James VI' came to be styled 'the University of Edinburgh'; but it remained under the control and patronage of the town council until 1858, when, by the Universities (Scotland) Act, all the univs. of Scotland received new and autonomous constitutions.

The old coll. on the site of 'Kirk o' Field', the scene of the murder of Lord Darnley, was designed by Robert Adam and William Playfair, and completed in 1828. Newer bldgs. incl. the med. bldgs., the McEwan Hall, and the King's Bldgs. for chem. and other sci. depts. The med. sch. has been famous for over two cents.; specially ample provision exists also for instruct. and res. in theol., agric., for., engin., mining, chem. technol., and biophys.

Royal (Dick) Veterinary Coll., Summerhall, Edinburgh, 9 (tel.: 41087/8; telegrams: Veter, Edinburgh). Founded 1823, became sch. of vet. studies within the univ., 1951 (*see* p. 1243).

CONSTITUTION. By the Universities (Scotland) Act, 1889, the univ. court was constituted a body corporate; it administers the whole univ. property. The *senatus academicus* regulates teaching and discipline; the general council is empowered to make representations to the court on all questions affecting the univ.'s prosperity. The chancellor, elected by the general council for life, is pres. of the general council and nominates an assessor in the univ. court. The vice-chancellor is nominated by the chancellor. The principal, elected by the curators for life, is pres. of *senatus*; in the absence of the rector he presides at meetings of univ. court, and in the chancellor's and rector's absence, at statutory meetings of general council. The rector, elected by matriculated students for 3 yrs., is pres. of univ. court, and appoints an assessor to it. The court comprises rector, principal, lord provost of Edinburgh, assessor nominated by chancellor, by rector and by town council; 4 assessors elected by *senatus* and 4 by general council. The *senatus* comprises principal, profs. and certain readers and lectrs. The general council consists of chancellor, members of court, profs. and grads. of univ., as well as readers and lectrs. of at least 1 yr.'s standing.

INCOME (1958-59). Total income, £2,309,655 (govt. grants, 73.7 per cent.; fees, 11.7 per cent.; endowments, 3.1 per cent.; other sources, 11.5 per cent.).

Certs. gained at the courses qualify for endorsement on teachers' certs. An annual 6 wks. residential summer sch. is held for American, Commonwealth and European students (grad. or sr. undergrad.) as part of a programme arranged jntly. with other univs. The jt. programme usually includes courses in hist., lit. and philos.

EXTRA-MURAL WORK (see also 'Teaching Staff', *above*). Classes conducted by the Edinburgh W.E.A. meet in the univ. bldgs. A univ. extra-mural cttee. organizes courses of lectures in the south-east area of Scotland.

UNIVERSITY TRAINING CORPS. The univ. trg. corps is organized in six sub-units of the following arms: artillery; engineers; electr. engineers; signallers; intelligence; and infantry. The primary object of the trg. is to develop leadership qualities in undergrads. whose military service has been deferred. Students are trained for direct commissions in the regular army as well as for commissioned rank in the territorial army and reserve. The contingent is fully equipped with arms and transport. ## GENERAL INFORMATION

The univ. was founded in 1451 by a Bull of Pope Nicholas V, on the applicn. of William Turnbull, bishop of Glasgow. It was establd. as

a *studium generale*, with the privileges of Bologna, and its charter provided for studies in theol., canon and civil law, arts and any other lawful fac.

The business of the univ. was carried on with varying fortunes till the Reformation, when its revenues were thrown into confusion. It was given new life by Andrew Melville, who became principal in 1574. In 1577 it was reconstituted by the 'nova erectio', a charter of King James VI which was the foundation of the statutes by which the univ. was governed until the Universities (Scotland) Act, 1858.

The 'old college' was situated in the High St. for more than 4 centuries; the univ. moved to its present site on Gilmorehill in 1870. Since the transference was made, a whole range of new bldgs. has come into being (*see* 'Univ. Precinct', *below*).

**CONSTITUTION.** By the Universities (Scotland) Act of 1858, as modified by the Act of 1889, the univ. court, upon which senate and general council have representation, controls the finance, properties and general admin. of the univ. The senate superintends teaching and discipline: it consists of the principal (who presides) and the profs. (*ex officio*) and readers and lectrs. apptd. by the senate to a max. of one-fourth of the *ex-officio* members. The general council consists of the chancellor, the members of the univ. court and the profs. of the univ., all *ex officio*; grads. of the univ. who have paid the registration fee; and (during their term of office) readers and lectrs. of more than 1 yr.'s standing. The chancellor is elected for life by the general council. The rector is elected by the matriculated students, is pres. of the univ. court, and holds office for 3 yrs. The office of principal is in the patronage of the crown. The vice-chancellor is apptd. by the chancellor to discharge in his absence his function of conferring degrees. The office has usually been and now is held by the principal.

**INCOME (1958-59).** Total income, £2,374,316 (govt. grants, 78 per cent.; fees, 11 per cent.; endowments, 5 per cent.; other sources, 11 per cent.).

**UNIVERSITY PRECINCT.** Depts. accomm. within the univ. precincts at Gilmorehill incl. arts, div., law, med., sci. and engin. together with the library, museum, Bute hall, chapel, officers trg. corps headquarters and the admin. offices.

The vet. sch. is accomm. outwith the precincts, at the vet. hosp., Garscube estate, and in the vet. sch. bldg., Buccleuch St., with addnl. res. and teaching facilities at the field stn., Cochno. Teaching for the degree in agric. is provided partly in the univ. and partly in the W. of Scotland Agric. Coll. in Blythswood Sq. (*see above*). Med. teaching and res. facilities are provided at the Western and Royal Infirmarys, Southern General, Stobhill, Yorkhill and Dental Hosps. The engin. dept. also has res. and teaching labs. in an annexe at Spencer St., Anniesland.

The original univ. precinct, extending to about 24 acres, is bounded by Univ. Avenue on the north, by Kelvingrove Park on the east and south and on the west by the Western Infirmary, and contains little possibility of further bldg. devel.

The adjacent devel. area, extending to about 26 acres, is bounded by Univ. Avenue on the south, by Bank St. on the east, by Gt. George St. on the north and generally by the Lilybank Gdns. area on the west. This area also contains few unoccupied sites immediately available for new bldgs. The univ. owns about 8 acres and is acquiring individual houses as these come on the market. An amended plan has been approved for future univ. devel. in the adjoining Hillhead area in which sites have been allocated for a number of important new bldgs. including a refectory and library.

For bldgs. recently completed or approaching completion, *see* p. 1265.

The LIBRARY, founded in the 15th century, contains over 490,000 vols., including 500 incunabula. Among its many important collections are the Euing, distinguished for the value and variety of its bibles; the Hamilton (philos. works); the Ferguson (rare bks. on the hist. of chem.); and the Pollok collection of emblem lit. bequeathed to the library in 1958. There are sep. branch libraries for chem. and vet. med. A large READING ROOM serves the needs of undergrads., while there are some 70 class and dept. libraries, among the largest of which are those associated with modern langs. (opened 1960), soc. & econ. res., and the dept. of Soviet instns. The HUNTERIAN MUSEUM, founded in 1783, contains the Hunterian libr., the most valuable of the univ.'s collections of bks. and MSS., as well as important collections of cons., anat. preparations, zool. and mineral specimens, etc.

**LABORATORIES.** Engin., bot., nat. philos., chem., physiol., biochem., anat., pathol., mat. med., forensic med., pub. health and zool. As Glasgow stands at the centre of the shipbldg, engin., mining and indust. area of Scotland, it offers unique opportunities for technical tr. There is a well-equipped heat engines res. establ. (Spencer St.). The nat. philos. dept. has a 340 MeV synchrotron. A computing lab. was establ. in 1958, having as its main equipment an English Deuce computer.

There are bot. gdns., a freshwater biol. field stn. (Loch Lomond), and an OBSERVATORY.

**TEACHING HOSPITALS.** 5 large general hosps. (the Western, Royal and Victoria Infirmarys and the Southern General and Stobhill hosps.) are available for clinics, besides sp. instns. (incl. consumption sanatoria). The dent. sch. is assoc. with the Dent. Hosp. (Renfrew St.). The vet. sch. (Buccleuch St.) has a recently built animal hosp. (Bearsden Rd.) and a field stn. (Cochno).

**FACULTIES AND DEANS (1960).** *Arts*, Prof. C. A. Campbell (logic); *div.*, Rev. Prof. R. G. Smith; *engin.*, Prof. W. J. Duncan (aero. engin.); *law*, Prof. J. M. Halliday; *med.*, Prof. C. M. Fleming; *sci.*, Prof. J. C. Gunn (nat. philos.).

## GENERAL INFORMATION

Founded in 1796 under the will of Prof. John Anderson, Anderson's Coll. was, in 1886, joined with the Coll. of Science and Arts (1823), the first 'mechanics' instn., itself an offshoot of the original Anderson's Coll., and with the Atkinson Instn (1861) in the Glasgow and West of Scotland Technical Coll. From 1912 the coll. was known as the Royal Technical Coll. and in 1956 H.M. the Queen approved the title of the Royal Coll. of Science and Technol., Glasgow. The coll. was affiliated with the Univ. of Glasgow in March 1913 and was recognized by the University Grants Committee and placed on the list of univ. instns. receiving grant from the Treasury in 1919.

**BUILDINGS.** The main coll. bldg., which is situated in the centre of Glasgow, was completed in 1910. Built on a very liberal scale, it proved adequate for the expanding work of the coll. until just before 1939 when a small extension was added. Since then a major extension for mech., civil, chem. and mining engin., and a large students' union have been added and bldgs. acquired for a dept. of food sci. and the sch. of navigation. Plans have been prepared for new depts. of chem. and chem. technol. and completion of engin. bldg. to be put under construcn. in 1960. The gift of a mansion house and grounds near Glasgow in 1955 provided the nucleus of what is now a residential centre for management studies.

**CONSTITUTION.** The coll. operates under the city of Glasgow Royal Technical Coll. scheme, 1935, of the educnl. endowments commission, and has a bd. of governors (30), of whom half are apptd. by the hd. and the others are representative of facs., instns., learned socs. and public bodies. The governors are responsible to the Scottish Education Dept. for the management of all coll. affairs; academic matters are under the immediate control of a bd. of studies consisting of hds. of depts. with reps. of the non-professorial staff.

**INCOME (1958-59).** £778,304 (fees, 13.2 per cent.; donations, etc., 0.5 per cent.; endowments, 0.6 per cent.; parliamentary grants, 85 per cent.; other income, 0.7 per cent.).

**LIBRARIES.** The Andersonian libr., commemorating the founder of the coll., houses an extensive range of technical and scientific publiens. (over 50,000), incl. many of historical interest, the founder's libr. and the James Young collection of early alchemical, metall. and chem. books. There are also deptl. libr.

**LABORATORIES.** Ample facilities for undergrad. and postgrad. work of the highest standard.

**COURSES.** Under the affiliation ordinances, the

coll. provides full qualifying courses for degrees of the Univ. of Glasgow in engin. ('sandwich' course), appl. chem., pharm. and archit. For the associateship of the coll. (A.R.C.S.T.), courses of 4 yrs. are provided in civil, mech., electr., chem. and mining engin., naval archit. (all 'sandwich' courses), appl. chem., metall. ('sandwich' and 3-term), ceramics, appl. maths., appl. phys., pharm., food sci., microbiol., bldg. and textile technol. Entrance qualifs. for the associateship courses are given in the *Prospectus of Full-time Courses*.

Courses (1 yr.) for coll. postgrad. dipl. in advanced studies are available in appl. maths.; appl. phys.; chem. process devel.; extraction metall.; phys. metall.; mech. engin.; power engin. (incl. nuclear power); prodn. engin.; civil engin.; struct. engin.; environmental control engin. & resource utilization; electr. engin.; mining engin.; mining geol.; appl. geophys.; naval archit.; food sci.; microbiol.; textile technol.; town planning.

The Glasgow Sch. of Archit. is constituted by the depts. of archit. in the coll. and the Glasgow Sch. of Art under a jt. cttee. of governors, and issues dipls. in archit. (5 yrs.) and postgrad. dipls. in town planning (5 terms).

The dept. of indust. admin. in the coll., together with the dept. of business admin. in the Scottish Coll. of Commerce, form the Glasgow Sch. of Management Studies under a jt. cttee. of governors and make jt. provision of courses in personnel management (1 yr.), indust. management (1 yr.) and dipl. in management studies (4 yrs. pt.-time). The coll. residential centre for management studies at 'Chesters', Bearsden, nr. Glasgow, has accomm. for 54 students. A sp. feature of the work of the centre is a series of short full-time courses for persons nominated by firms.

In pt.-time classes the coll. offers a very wide range of technol. courses at advanced and postgrad. level. Under the scheme of the W. of Scotland cttee. for technical educn., the coll. classes form the apex of an educnl. pyramid, and pt.-time students from all parts of the W. of Scotland can complete their courses at the Royal Coll. of Science and Technol. The courses below advanced level are conducted by the various educn. authorities.

**RESEARCH.** Students can pursue res. for higher degrees of the Univ. of Glasgow and for coll. postgrad. dipl. In addn. to fundamental res., the coll. works in close co-operation with res. assocns. and industry. This is a sp. feature of coll. policy, which adds greatly to its res. resources and makes possible work on problems of current interest, sometimes on pilot plant and even larger scale.

**ADMISSION.** Admission to courses leading to degrees of the Univ. of Glasgow is conditional upon obtaining an attestation of fitness from the Scottish Univs.' Entrance Bd. (see Appendix II). The conditions for admission to associateship courses are broadly similar, except that a pass in a foreign lang. is not essential. Students wishing to read for external degrees of the Univ. of London must satisfy the admission requirements of that univ. (see Appendix II).

**TUITION FEES.** Degree courses—engin., appl. chem., pharmacy and archit., £55 p.a.; associateship courses, and other non-degree courses—£55 p.a.; postgrad. courses, £55 p.a.; environmental control engin. & resource utilization, £75 p.a. Fees for courses in indust. admin. and for pt.-time classes are shown in the relevant prospectuses.

**RESIDENCE.** Lochview Hall, 1085 Gt. Western Rd., Glasgow (tel.: Kelvin 3262), accomm. 50 male students. Fees: £3:10s. per week.

**STUDENT ASSOCIATIONS.** The student body acts through the students' representative council and joins with others in the Scottish Union of Students. There is a sports ground at Cambus-

lang and there are the usual facilities for indoor games. The coll. has a mod. gymnasium with a phys. trg. instr. A large new union has just been completed.

**FORMER STUDENTS' ASSOCIATION.** Formed in 1936. Copies of the *Annual Report* of the coll. are circulated to all members and social functions arranged regularly. A live register of members is kept by the hon. sec. at the coll. and members going overseas have valued the introductions provided by the assocn. Branches of the assocn. are active in Glasgow, London, Newcastle upon Tyne, Birmingham, S. Africa, Canada and Norway. Life membership is available to qualified applicants at a fee of £1:1s.

**PUBLICATIONS.** *Prospectus of Full-time Courses*, *Prospectus of Pt.-time Classes*; *Bursaries, Scholarships & Prizes*; *Prospectuses* for the following: sch. of archit., sch. of navigation, 'Chesters' residential centre for management studies; *Courses of Postgrad. Study*; *Environmental Control Engin. & Resource Utilization*; *Annual Report*; *Report on Research*.

## GENERAL INFORMATION

The univ., founded in 1411, is the oldest in Scotland. St. Salvator's Coll. was founded in 1450 and St. Leonard's Coll. in 1512. The 3rd St. Andrews coll., St. Mary's, founded in 1537, has, since 1579, been restricted to the teaching of theol. In 1747 the colls. of St. Salvator and St. Leonard were amalgamated to form the United Coll. of St. Salvator and St. Leonard, now generally known as St. Salvator's Coll. University Coll., Dundee, founded in 1881, was in 1897

affiliated to the Univ. of St. Andrews, and at the same time the conjoint medical sch. was established in Dundee. Under the Univ. of St. Andrews Act, 1953, Univ. Coll., Dundee, and the conjoint med. sch. were merged into a new coll. of the univ. subsequently named Queen's Coll.

CONSTITUTION. Under the Univ. of St. Andrews Act, 1953, the univ. comprises 3 colls. being unincorporated societies of teachers and

students. The univ. court is a body corporate with perpetual succession and a common seal, and all the property belonging to the univ. is vested in the univ. court. The above act also set up the council of the United Coll. of St. Salvator and St. Leonard and St. Mary's Coll., and the council of Queen's Coll., and empowers the univ. court to delegate various functions to these councils.

The *senatus academicus* is responsible for the general supervision of teaching and discipline. The chancellor, who is elected by the general council and holds office for life, is empowered to appoint a vice-chancellor who may in his absence discharge his office in so far as regards conferring degrees but in no other respect. By a convention uniformly observed since 1858 the principal of the univ. is apptd. vice-chancellor. The rector, who is elected by the matriculated students of the univ. and holds office for 3 yrs., is the ordinary president of the univ. court; he also presides over the general council in the absence of the chancellor.

## GENERAL INFORMATION

Queen's College was establd. by royal charter in 1845, opened in 1849, and linked with colls. at Cork and Galway as the Queen's Univ. in Ireland in 1850. Originally there were three facs., arts (with sci. and lit. divisions), med. and law. In 1879, Queen's Coll. became a constituent coll. of the Royal Univ. of Ireland. The governing body was the purely academic coll. council. At the turn of the century private benefactions led to increased bldgs. and addtnl. staff. In 1908 the coll. became the Queen's Univ. of Belfast, the Royal Univ. of Ireland being dissolved in the following yr. The senate became the governing body, consisting of reps. of the public life of Ulster, of the profs. and of grads. The identification of the new univ. with the interests of Ulster became closer on the establt. in 1920 of the govt. of N. Ireland from which the univ.'s income is largely derived on the advice since 1945 of the Univ. Grants Cttee. Since Queen's Coll. became a univ. the following facs. have been added to the original 3: in 1910 sci. and econ.; in 1921 appl. sci. & technol. with the co-operation of the Belfast Coll. of Technol.; in 1924 agric., whose work is co-ordinated with that of the Ministry of Agric. for N. Ireland; and in 1926 the fac. of theol., most of the teaching for which is given in the Presbyterian Coll., Belfast, and in Edgehill Theol. Coll., Belfast.

CONSTITUTION. The authorities of the univ. are the chancellor, who is the titular chief officer; the pro-chancellors (of whom there may be 3); the pres. and vice-chancellor, who is the principal academic and admin. officer; the senate, which is the governing body; the academic council, which is the body of profs. and certain lectrs. responsible for internal academic affairs; the gen. bd. of studies, which considers courses of study and recognition of colls. and teachers; the facs.; and convocation, the statutory body of grads., which elects the chancellor and 8 members of senate and may consider any matter referred to it by senate.

VETERINARY COLLEGE OF IRELAND, Ballsbridge, Dublin (tel. : 684384).

## GENERAL INFORMATION

Trinity Coll. was founded and incorporated by royal charter in 1592 as 'mater universitatis', but no other coll. has been founded, so that 'Dublin Univ.' and 'Trinity Coll.' are practically interchangeable terms. The original charter granted very full legislative powers to the provost and sr. fellows, who constituted the bd. Legislation of Charles I took away many of these powers, which were reserved to the crown. By letters patent of 1911 the crown again granted wide powers of

making statutes to the corporation, subject to the consent of a majority of the fellows and the approval of the visitors.

The coll. occupies a large site in the middle of the city, with ample grounds for recreation and athletics.

CONSTITUTION. The general govt. of the coll. is in the hands of the bd. of Trinity Coll., which consists of the provost, sr. fellows, 4 reps. of jr.

fellows and 2 reps. of the non-fellow profs. The univ. council, formed by reps. from the bd. and various facs. and schs., has the right of nomination to most professorships, and in conjunction with the bd. can make changes in the curriculum, but otherwise has only advisory functions.

**REPRESENTATIVES IN SEANAD EIREANN.** W. B. Stanford, MA LittD; O. L. S. Skeffington, MA PhD; W. J. E. Jessop, MSc MD, FRCPI.

**INCOME (1959-60).** Total income, £437,628 (govt. grant, 30.9 per cent.; endowments, 20.7 per cent.; fees, 40.2 per cent.; payment for services, 4.8 per cent.; other, 3.4 per cent.).

The **LIBRARY** of Trinity Coll. has enjoyed since 1801 the privilege of receiving a copy of every book publ. in the U.K. It contains about 895,000 printed books and over 3000 MSS. incl. an important collection in Irish. The Lecky libr., based on the libr. of the historian W. E. H. Lecky, caters for the schs. of hist., econ. and legal sci. There are smaller librs. in the schs. of mod. langs., med., maths., nat. scis., geog., philol. and educn.

**MUSEUMS.** Zool. and comp. anat., geol. and mineral., anat., pathol., biblical antiquities. The zool. collection is one of the best in the country. Attached labs. offer all facilities for res. work.

**LABORATORIES.** Anat., bacteriol., biochem., bot., chem., engin., genetics, geol. (Iveagh), geog., histol., pathol., pharmacol., phys. (Iveagh), physiol., soc. med. (Moyné), zool.

**HERBARIUM** (rich in plants of N. America, India, S. Africa and Australia). **BOTANIC GARDENS**, 4 acres.

Ample facilities for clin. studies and many appts. for grads. are available in numerous **HOSPITALS**, incl. the well-known Rotunda.

**PROFESSIONAL SCHOOLS.** Agric., comm., div., educn., engin., for., law, music, phys., soc. studies, vet. med. Registrars—*agric.*—A. A. Pakenham-Walsh, MA; *comm.*—W. J. L. Ryan, MA PhD; *educn.*—Rev. E. A. Crawford, BD PhD; *engin.*—W. Wright, BSc PhD; *law*—F. E. Dowrick, MA; *mus.*—G. H. P. Hewson, MA MusD; *soc. studies*—Prof. F. B. Chubb, MA DPhil; *vet. med.*—Prof. W. J. E. Jessop, MSc MD, FRCPI.

**ADMISSION.** All applcns. must be made to the sr. tutor. The matric. exam., held 3 times a yr., comprises: (1) English composition & lit.; (2) one subj. from the group maths., addtnl. maths., phys., chem., hist., geog., biol.; (3) one subj. from the group French, German, Greek, Hebrew, Irish, Italian, Latin, Spanish; (4) any two other subjs. from (2) and (3). All candidates must present themselves either in maths. or in Latin. Candidates for admission to the honour schs. of classics, mental and moral sci., mod. lit., anc. & mod. lit., Celtic langs., mod. hist. & pol. sci., legal sci., and to the professional schools of div. and law, are required to qualify in Latin.

Exams. exempting from matric. incl.: Leaving Cert. of Dept. of Educn., Ireland; General Cert. of

Educn. awarded by approved examining body in England or Wales with at least 2 subjs. at advanced level (*see* p. 1360); matric. exam. of any Irish or U.K. univ. and of any other univs. recog. by the bd. of Trinity Coll. If such certs. do not cover all the prescribed subjs. of matric., the candidate must pass the Dublin matric. exam. in the subj. or subjs. in which he is deficient. Overseas students must satisfy the sr. tutor that they have an adequate knowledge of Engl., both spoken and written. They may obtain exemption from one European lang. other than Engl. on presenting evidence of having passed a recog. exam. in their own lang. Having qualified for matric., candidates must obtain admission from the sr. tutor, for which purpose they must produce evidence of character and of academic suitability. Financial guarantees are required from overseas students. All candidates for admission to the schs. of phys., nat. sci. and agric. must, in addn. to complying with the foregoing general requirements, be approved by the admission cttee. of the sch. concerned. Overseas candidates for admission to the honour sch. of legal sci. and to the professional sch. of law must be approved by the legal studies admission cttee. All candidates who have been admitted by the sr. tutor enter the coll. by paying the first coll. fee. The collegiate interests of all students on the coll. books are under the guardianship of the tutors. Students are normally assigned to tutors by the sr. tutor at entrance.

**ADMISSION TO ADVANCED STANDING.** Sp. regns. provide for the grant of credit for previous academic attainments at the univs. of Oxford and Cambridge, while students or grads. of other recog. univs. may be allowed credit *pro tanto* for 1 or 2 yrs. of the Dublin arts course.

**FIRST DEGREES.** Every student must take the BA (4 yrs.) before proceeding to any other degree, except in music. All students not in a professional sch. are required to attend arts lectures in every term, unless specially exempted (*e.g.* those earning their living by teaching). If exempted they are required to pass extra exams. Exemption<sup>1</sup> from attendance is never granted to students taking scientific subjects for the BA.

The **hons. BA**—known as *moderatorship*—can be taken in 11 different groups, viz.: maths.; classics; mental & moral sci.; nat. sci.; mod. lit.; anc. & mod. lit.; Celtic langs.; Oriental langs.; mod. hist. & pol. sci.; econ. & pol. sci.; legal sci. The course for each lasts 4 yrs.

The 4-yr. pass BA course in nat. scis. covers approx. the same ground as the 1st 3 yrs. of the honour course in nat. scis. In the last 2 yrs. the student studies 3 subjs. chosen from phys., chem., bot., zool., geol., geog.

Engl. composition is a compulsory subj. throughout the pass BA course in gen. studies; otherwise a wide freedom in choice of subjects is allowed. Candidates must present themselves in Engl. composition and 4 subjs. at the pass BA exam. For comm., div., engin., law and med.

students there is a sp. reduced arts course throughout.

# UNIVERSITY ADMISSION

### QUALIFICATIONS FOR ENTRY TO FIRST DEGREE COURSES:

(A) <i>Australia</i> . . .	p. 1326
(B) <i>Canada</i> . . .	p. 1336
(C) <i>South Africa</i> . . .	p. 1358
(D) <i>United Kingdom</i> . . .	p. 1360

#### (A) AUSTRALIA

[The statement which follows relates only to the admission of students proposing to take full courses leading to a first degree. For information regarding admission to courses leading to higher degrees, see the entries for the several univs., above.]

#### GENERAL NOTE

The primary and secondary educnl. systems of the Australian states are the responsibility of the various state govts. Consequently they differ in many respects. However, they are all alike in that they prepare students to the standard necessary for matric. at the univ. or univs. establ'd. in their home state. In all cases there is some liaison between the state educnl. system and the univs. in that state to ensure that candidates coming forward to the univs. will be able to comply with the matric. requirements.

There is no provision for jt. matric. in Australia, each univ. controlling its own admission requirements. Thus the Univs. of Adelaide, Melbourne, New England, New South Wales, Queensland, Sydney, Tasmania and Western Australia, and the Australian National Univ., have individual matric. requirements which are specified below.

The Australian National Univ. comprises 2 sections, namely the inst. of advanced studies and the sch. of general studies. The inst. is concerned with postgrad. res. and study and does not conduct courses leading to a first degree. The minimum academic requirement for admission as a student studying for a doctor's degree is a first degree with honrs. from a recognized univ., but the inst. needs to be satisfied as to the student's

capacity for res. The sch. of general studies (formed from the former Canberra Univ. Coll.) offers courses leading to the degrees of bachelor or master. For 1961 and 1962 a person qualified to be admitted to any Australian univ. will be granted matric. status in the sch.

The admission requirements of the Australian univs. have the same purpose, being designed to ascertain whether candidates are educationally fitted to undertake courses leading to a first degree. This may be done either at a public exam. open generally to secondary sch. students or at a sp. matric. exam. conducted by the univ. In some cases passes are required in sp. subjs. for entrance to the different facs., in addn. to the requirements for matric.

Although the requirements for entrance to the various univs. are not uniform, all possible reciprocity is exercised in the interchange of students, whether from Australian or British univs. In general the univs. will admit to matric. *ad eundem statum* a student who has matriculated or qualified to matric. at another univ. of recog. standing, but in some cases passes in particular subjs. at matric. standard, or in compulsory 'pre-requisite' subjs. for particular courses, may be required.

Sp. facilities are offered for matric. in some univs. to persons of mature age who have not had the opportunity of qualifying in the ordinary way and who pass certain sp. entrance tests.

The table below shows the public exams. in each state recog. by the univs. for matric. purposes,

except as indicated by an asterisk. The exams. are fully recog. only by the univ. conducting them, though, as mentioned above, qualification by a student for matric. at the univ. of his home state is generally recog., in so far as standard is concerned, by the other Australian univs.

*Note.* The age of transfer from primary to secondary sch. varies from state to state, ranging from 12 yrs. in Victoria to 14 yrs. in Queensland.

The average age of entrance upon univ. study is 17 plus in most states, 18 plus in Queensland.

Exams. are also conducted in music in each state under the general auspices of the Australian Music Exams. Bd. Passes in appropriate grades at these exams. are accepted as passes at leaving

cert. standard and, consequently, for matric. purposes, in most states. In Victoria, however, the exams. are recog. for purposes of inter. and leaving cert. exams. but the Univ. of Melbourne conducts its own exams. in matric. music.

## SPECIFIC CONDITIONS

## ADELAIDE

The minimum age for matric. is 16 yrs.

*South Australian Candidates*

In general the requirements for matric. in the Univ. of Adelaide are 5 subjs. taken at the leaving exam. held annually in Nov.-Dec. and chosen from the following groups with certain subjs. specified for the various facs. as follows :

Group A. Engl.

Group B. (i) Latin, Greek, French, German, and such other langs. as may be approved for matric. purposes by the council on the recommendn. of the matric. bd. ;  
(ii) anc. hist., mod. hist., econ. hist., econ., geog., music.

Group C. (i) maths. pt. I, maths. pt. II ;

- (ii) phys., chem., geol., bot.,  
physiol., agric. sci.

Group D. Arith., drawing, book-keeping.

(a) To fulfil the educnl. requirements for matric. a candidate must

- (i) pass in at least 5 subjs. from groups A, B, C and D, above, incl. at least one subj. from each of groups B and C; *provided that* if either maths. pt. I or maths. pt. II is counted, arith. cannot be counted;
- (ii) include in his 5 subjs. at least one subject from section (i) of either group B or group C;
- (iii) *either* pass in Engl. lit. as one of the 5 subjs., *or* satisfy the examiners of his ability to use the lang. as an instrument of expression.

The qualif. in Engl. obtained by a candidate who has satisfied the examiners of his ability to use the lang. as an instrument of expression shall not count as a subject.

(b) The attention of intending candidates is drawn to the fact that, although such requirements do not form part of the general requirements for matric., in some 1st-yr. subjs. at the univ. either a pass in the corresp. subject at matric. standard is prescribed for admission to the class or a knowledge of the subject at matric. standard is assumed.

Attention is drawn to the following :

(a) *Lang. other than Engl.* At least one course in Greek, Latin, French or German is compulsory for the ord. BA degree. No candidate may take the course in Greek I, Latin I, French I or German I until he has passed in the corresp. subject at the leaving exam. or at an exam. accepted by the univ. as equivalent.

(b) *Maths.* Courses in maths. are compulsory subjects in the engin. course; further, a 1st-yr. course in maths. will for many candidates be an essential or desirable subj. in certain other courses (e.g. sci.). No candidate may be admitted to a 1st-yr. class in either until he has passed *either* in leaving maths. pts. I and II *or* in an exam. accepted by the univ. as equivalent.

(c) *Phys. and Chem.* Although a pass at leaving standard is not a prerequisite for admission to the classes in 1st-yr. phys. and chem., the syllabuses in these subjs. presuppose a knowledge of phys. and chem. at leaving standard.

(d) *Music.* Harmony II is a compulsory subject in the 1st yr. of the course for the MusBac degree, and no candidate will be admitted to the class in that subj. until he has *either* passed in the theory of music at the 7th grade of the public exams. in music *or* in a sp. entrance exam. in the theory of music of equivalent standard.

(e) *Law.* A pass in Latin at leaving standard is prerequisite for entry to the class in Roman law.

#### *Candidates from other Australian States*

Matric. in any other Australian univ. is accepted provided that the subj. and grouping

requirements, as prescribed for S. Australian students, are met. A candidate whose qualifs. for matric. in the univ. of his own state do not incl. one or more of the subjs. specified by Adel. is required to pass in only the outstanding subj. or subjs.

#### *Overseas Candidates*

(a) *United Kingdom, Canada, Ceylon, New Zealand and South Africa.* Qualifs. which entitle the holder to matric. in the corresp. fac. in any recog. univ. of any of the Commonwealth countries listed above are accepted, provided that the subj. and grouping requirements, as prescribed for S. Australian candidates, are met. The English G.C.E. is accepted on a basis similar to that required by English univs., provided that certain subjs. (other than Engl.) specified at leaving standard by Adel. have been passed at the advanced level.

(b) *Other parts of the British Commonwealth.* The requirements for candidates from other parts of the Commonwealth, esp. from southern and eastern Asian countries, in general conform to those of U.K. univs., so far as standard is concerned, and incl. the specially prescribed subjs. required by Adel. of its local candidates.

Candidates from India and Pakistan are required to have passed at a good standard in their own univ.'s inter. exam. in arts or sci. and to have incl. in that exam. Engl. and such other subj. or subjs. as may be prescribed for S. Australian candidates.

(c) *Other overseas students.* A candidate may be admitted to matric. who (i) holds a cert. which qualifies him for matric. in a recog. European or United States univ., provided that the subjects specified in the Adel. requirements are included and provided also that the cert. contains at least one mod. lang. and lit.; (ii) in the case of a candidate whose native lang. is not Engl., has passed in a standard Engl. test; and (iii) has passed in the prescribed fac. prerequisites as follows :

*Sci. and engin.* (and for admission to the class in maths. I). Either maths. I and II at the S. Australian leaving exam. or (in approved cases only) a sp. exam. in maths. of equivalent standard.

A candidate who is unable to present acceptable evidence of matric. work done elsewhere must pass in appropriate subjects at the S. Australian leaving exam.

#### *Mature Age*

No provision is made for modification on account of age of the normal requirements for matric.

#### *Special Cases*

The matric. bd. may consider applicns. from candidates who have qualifs. in secondary educn. but have not satisfied the normal requirements for matric. The bd. usually does not exempt such a candidate from the specified entrance requirements, but it may admit him for 1 yr. under con-

ditions which it specifies and which must be fulfilled within 1 yr.

## *Last Date for Receipt of Applications*

The last day of enrolment for local candidates is the 7th Monday in the yr. Late enrolments may be accepted on payment of a late-enrolment fee. The last day of applicn. for admission by overseas candidates is Sept. 30 of the preceding yr. In facs. in which there are quotas this date is rigidly applied.

## AUSTRALIAN NATIONAL UNIVERSITY

### School of General Studies

#### *Special Requirements for Admission*

'There is no min. age for admission to the sch. of general studies. There are no sp. fac. requirements.

#### *Candidates from N.S.W. and the A.C.T.*

A person is eligible to be admitted to matric. if he has, at the one exam., passed the N.S.W. Leaving Cert. exam. in Engl. ; a branch of maths. or a foreign lang. ; and 3 other approved subjs. For 1961 and 1962 a person who satisfies the admission requirements of the Univ. of Sydney or the Univ. of N.S.W. or the Univ. of New England, but who does not satisfy the preceding requirement, may also be admitted.

#### *Candidates from other Australian States*

A person qualified to matriculate in another Australian univ. will be admitted to matric. status.

#### *Overseas Students*

'The matric. qualifs. of certain overseas instns. are accepted as grounds for admitting students to matric. status. However, a person whose native lang. is other than Engl. may be required to show that he has an adequate knowledge of the Engl. lang. by passing a standard Engl. test while still resident in the overseas country.

#### *Provisional Matriculation*

The remaining subjs. may be chosen from the above groups and from appl. maths., phys., chem., biol., geol., geog., econ., music and art.

Engl. expression and 2 other subjs. may be passed at the Schs. Bd. exam. or at the lower pass standard of the matric. exam. The remaining 3 subjs. must be passed at the higher pass standard of the matric. exam. Students may be exempted from the requirement of having to pass in subjs. of both groups (c) and (d), provided that a subj. of one of the groups is passed and that a certain subsidiary standard is reached in a subj. of the other group. One lower pass and the 3 higher passes must be gained in 2 sittings, exams. held in Dec. and the following Feb. counting as 1 sitting for this purpose. Engl. expression and the remaining lower pass may be gained at any sitting or sittings. Schs. Bd. subjs. and corresp. matric. subjs. may not both be counted, e.g. Schs. Bd. maths. It may not be counted if matric. maths. A has been passed.

The normal min. age for admission to matric. is 17 yrs. but students under this age may be admitted if considered by the professorial bd. to be of exceptional ability. Persons over the age of 23 yrs. may be admitted to matric. without having complied in full with the ordinary requirements.

*Prerequisites*

There are no fac. prerequisites as such, but the following prerequisites for specific subjs. are required :

*Last Date for Receipt of Applications*

The last date for receipt of applicns. for admission is Feb. 15 for all students.

**WESTERN AUSTRALIA***General Qualifications for Matriculation*

The min. age for admission is 17 yrs. The normal method of satisfying min. entrance requirements is by means of a qualifying exam. in which candidates must pass in Engl. and 4 other prescribed subjs. The qualifying exams. incl. the Western Australian Leaving Cert. exam. held annually in Nov. and the matric. exam. conducted by the Univ. of W. Aust. in Feb. each yr. Admission to the matric. exam. is restricted to persons who seek to complete matric. requirements.

There are no spec. requirements for entrance to any fac.

(1) The subjs. for matric. are (i) Engl. ; (ii) French, German, Greek, Hebrew, Italian, Latin, Spanish, or any other lang. approved from time to time by the bd. ; (iii) geog., hist., econ. ; (iv) maths. A, maths. B, music ; (v) biol., chem., geol., phys.

(2) Subject to section (3) (*below*), in order to matric., candidates must at 1 exam. pass in Engl. and in not less than 4 other subjs. chosen from at least 3 of the groups (ii), (iii), (iv) and (v) above. ## (B) CANADA

(Contributed by Dr. E. F. Shethfield, Research Officer, Canadian Universities Foundation)

[The statement which follows relates only to the admission of students entering at the conclusion of secondary school studies and proposing to take full courses leading to a first degree. For information regarding admission at higher levels and to courses leading to higher degrees, *see* the entries for the several univs., *above*.]

### GENERAL NOTE

The public elementary and secondary schools of Canada are under provincial jurisdiction: each province has its own curriculum and awards its own certs. of completion of secondary school studies. Except in French Canada (*see below*), private schools are relatively few, enrol less than 5 per cent. of the elementary and secondary school population, and usually follow the public school curriculum of the province in which they are located. Courses of study which prepare for entry to univ. are of 11 to 13 yrs.' duration. Secondary school graduation certs. are at two levels, one generally referred to as the *junior matriculation* level (after the 11th or 12th grade or year of schooling), and the other, involving an addtl. year of study, as the *senior matriculation* level (after the 12th or 13th grade or year of schooling).

Some univs. admit at the jr. matric. level, some at the sr., and some at both levels—allowing credit for one yr. of univ. studies on the basis of certs. at the sr. matric. level. Each univ. couches its entrance requirements in terms of the certs. awarded in its own province but all treat certs. of other provinces as if they were approx. equivalent to their own, differentiating only between jr. and sr. levels.

Most exams. marking the completion of high

school (secondary) studies are set and marked by the dept. of educn. of the province concerned. Three of the four Atlantic provinces (Newfoundland, Prince Edward Island and Nova Scotia) co-operate in the support of an Atlantic Provinces Examining Bd. which sets and marks exams. for each of the three provinces. The exams. differ for the various provinces, however, and the results are issued by the provinces on their own certs. rather than by the bd. An exception is made for a few private schools for which statements of exam. results are issued in the bd.'s name. In the province of Quebec there are two public examining bodies: for Catholic schools—the *Comité de Régie du certificat d'études* (of the *Comité Catholique du Conseil de l'Instruction Publique*); and for Protestant schools—the Protestant High School Leaving Bd. (of the Protestant Cttee. of the Council of Education). In Ontario, exams. at the jr. matric. level are set and marked, under the jurisdiction of the provincial dept. of educn., by individual schools, while those at the sr. matric. level are under the supervision of a Univ. Matric. Bd. composed of reps. of the major univs. of the province and reps. of the dept. of educn. In Manitoba, Saskatchewan, Alberta and British Columbia exams. are supervised jtly. by the univ. and the dept. of educn.

A number of the univs. of the Atlantic provinces set their own matric. exam. when necessary, but few students present themselves and seldom does a student take these exams. in all of the required subjs. In the province of Quebec the three French-lang. univs., Laval, Montreal and Sherbrooke, have extensive programmes of exams. (described below). McGill Univ. sets series of papers at both jr. and sr. levels, the former qualifying for the Jr. School Cert. and the latter for the Sr. School Cert. of the univ. The univs. of the other provinces do not set matric. exams. of their own but, as mentioned above, each co-operates with the dept. of educn. of its province.

In French Canada the course leading to the *baccalauréat ès arts* (BA) is given in independent *collèges classiques* affiliated to the univs. It is of 8 yrs.' duration, in two 4-year stages called *cours secondaire* and *cours collégial*. The former is comparable to the high school of English Canada and the latter to the general course in arts. Admission to the 2nd stage is by passing the *immatriculation* exam. set by the univ. at the conclusion of the yr. known as *versification*, which is the 4th (final) yr. of the *cours secondaire* and the 11th yr. of schooling. Compulsory exam. subjs. are: French, Engl., Latin, hist., geog., maths. and sci. Greek is optional. Recent revision of the Quebec French Catholic secondary school curriculum has made it possible for certain schools under provincial control to offer the equivalent of the 1st 4-yr. stage, the classical course preparing for *immatriculation*.

The 4 yrs. of the *cours collégial* are called *belles-lettres, rhétorique, philosophie I* and *philosophie II*. In colls. affiliated to Laval and Sherbrooke, univ. exams. are taken at the end of the 2nd yr. (*rhétorique*), and again at the end of the 4th yr. for the *baccalauréat*. In those affiliated to Montreal, exams. are taken at the end of every yr. of the *cours collégial*.

In order to meet the needs of students wishing to enter certain facs. of the French-lang. univs. by routes other than that offered by the *collège classique* the Univ. of Montreal and the Univ. of Sherbrooke inaugurated within recent yrs. a one-yr. preparatory course open to grads. of other secondary schools and leading to a *certificat d'immatriculation majeur* or *senior*.

In the table which appears on pp. 1338-1340 the most common certs. and records of marks issued by official examining bodies in Canada are listed. The nos. assigned to them are referred to in the statements of requirements for admission to the various univs., which follow. The reader should be aware that some documents issued by examining bodies do not certify graduation but simply list marks obtained on exams., e.g. 'certificates' numbered 1, 2, 4, 9, 26, 27. It should be noted also that some public high schools issue their own graduation dipls. or certs. on bases which may or may not meet the standards set by the provincial dept. of educn., e.g. in Prince Edward Island and New Brunswick.

In order to make these individual statements

somewhat comparable, three common headings are used for each English-language institution: A. Admission at the Junior Matriculation level, B. Admission at the Senior Matriculation level, and C. Students from Abroad. For the French-language univs., in which the terms jr. and sr. matric. have less relevance, the three common headings are: A. Admission to the second stage (*cours collégial*) of the Arts programme in affiliated *collèges classiques*, B. Admission to certain degree courses in the University proper by a certificate of completion of secondary school, and C. Students from Abroad.

It should be noted that in most univs., admission to such professl. schools as med., dent., law, theol., library sci., social work and educn. requires the previous attainment of a 1st degree in arts or sci. or at least 2 yrs. of study, beyond the jr. matric. level, in arts or sci. Reference to these is omitted except in the few cases (e.g. med. and dent. at Toronto) where the pre-professl. studies are followed in the professl. school itself and where admission is normally at the conclusion of secondary school studies.

It is likely that, effective in 1961, a considerable number of the English-language univs. will adopt regns. concerning facility in the English lang., comparable to those now in effect at the Univ. of Toronto. (See p. 1356.)

Some oft-used terms defined:

**Junior matriculation.** Eligibility for admission to univ. at the lower of the two common levels of entry. A student holding a secondary school graduation cert. may or may not have 'junior matriculation' standing, depending on the number and pattern of the subjs. taken and his standing on the exams.

**Senior matriculation.** Eligibility for admission to univ. at the higher of the two common levels of entry. Involves one yr. of study beyond the jr. matric. level.

**Grade, Year.** One yr. of primary or secondary schooling, Sept. to June. Thus grade XI is the 11th yr. of schooling, 12<sup>e</sup> année is the 12th.

**Pass or General Course.** An unspecialized univ. course, commonly leading to a bachelor's degree in 4 yrs. beyond jr. matric., or 3 yrs. beyond sr. matric.

**Honours course.** A specialized univ. course, sometimes of the same length as the pass or general course, more often one yr. longer.

**First year, Second year, etc., of course.** Counting from jr. or sr. matric., depending on which is the minimum level of admission to the fac. concerned.

**Freshman, Sophomore, Junior, Senior year of course.** 1st, 2nd, 3rd, 4th yr., usually counting from the jr. matric. level.

**Subject, Paper.** In any one subject in which a candidate is examined for graduation from secondary school he may be required to write 1, 2 or (occasionally) 3 papers.

**Elective, Option.** A matric. subj. which may be

chosen with more or less freedom from a list of subjs., no one of which is compulsory.

*Credit.* When an entering student is given *credit* for a univ. subj., he is exempted from it and the number of courses required for the degree is thus reduced.

*College aptitude test.* Usually a psychological

exam. of scholastic aptitude : an intelligence test or something similar.

*Music certificates.* Certs. required for admission to facs. of music frequently are referred to in such terms as : grade VIII practical, grade II theory. The reference is to the exams. of one or other of the conservatories of music in the region.

## (C) SOUTH AFRICA

**GENERAL.** The qualif. for entrance to a course of study for a first degree of any univ. in South Africa is the matric. cert. of the Joint Matric. Bd. for the nine univs. in South Africa, or a cert. of exemption issued by that bd. The bd. was establd. by act of parliament passed in 1916 and has conducted the matric. exam. since 1918. Before that the matric. exam. was conducted by the now defunct Univ. of the Cape of Good Hope. For all practical purposes, therefore, the only recog. qualif. for admission to a course of study for a first degree is the matric. cert. or the exemption cert. of the bd. A successful candidate at the matric. exam. may be awarded *either* a sch. leaving cert. *or* a matric. cert., depending upon the subjs. passed, the standards attained in specific subjs. and aggregate marks. The sch. leaving cert. is not an entrance qualif. for a course leading to a degree, although it may be accepted by the univs. for admission to courses of study leading to certain dipls. and certs.

**APPROVED SUBJECTS FOR THE MATRIC. EXAM.** The list of approved subjs. is as follows:

Section A. (1) Afrikaans (H. or L.)\*; (2) Engl. (H. or L.); (3) Nederlands (H. or L.); (4) German (H. or L.); (5) Bantu langs. (H. or L.); (6) Latin; (7) Greek; (8) French; (9) Hebrew; (10) Portuguese; (11) Italian; (12) maths.; (13) phys. sci. (not to be taken with 14 or 15); (14) phys.; (15) chem.; (16) biol. (not to be taken with 17 or 18); (17) bot.; (18) zool.; (19) geol.; (20) geog.; (21) hist.

Section B. (22) agric.; (23) housecraft & hygiene; (24) book-keeping & comml. arithmetic; (25) shorthand & typewriting; (26) addnl. maths. (may not be taken without maths.); (27) mech-

anics (may not be taken with phys. or without maths.); (28) art; (29) music.

No lang. may be taken on both the higher and the lower grade.

Candidates are required to take, at one and the same exam., not fewer than 6 or more than 7 subjs., and to pass in not fewer than 5 subjs. with not less than 33½ per cent. in each of the 5, and obtain a fixed min. aggregate, the aggregate for the matric. cert. being 1000 marks and that for the sch. leaving cert. being 800 marks. Candidates so passing obtain *EITHER sch. leaving certs.* of the subjs. passed incl. (i) an official lang. (*i.e.* Engl. or Afrikaans) § on the higher grade and (ii) another lang.; *OR matric. certs.*, if the subjs. passed incl. 4 subjs. in each of which the candidate has obtained the matric. standard of 40 per cent., viz. (I) an official lang. (*i.e.* Engl. or Afrikaans) on the higher grade; (II) the other official lang., on the higher or lower grade, or an approved Bantu lang. on the higher grade or Latin or Greek or French or German or Italian or Portuguese or Hebrew, (III) maths. or a sci.; (IV) maths. if not taken under (III) or another lang. from (II) or hist. or geog. or a Bantu lang. on the lower grade (provided that a Bantu lang. on the higher grade has not been offered under (II)) or other lang. in which the bd. decides to conduct an exam. Candidates who are awarded a matric. cert. must have *either* (i) included in their 4 subjs. maths. or an approved lang. other than Engl. or Afrikaans *or* (ii) taken maths. or an approved lang. other than Engl. or Afrikaans as a 5th subj., and obtained not less than 33½ per cent. of the total marks. *Note:* (i) as from Nov./Dec. 1963 an approved lang. other than Engl. or Afrikaans will be defined as Latin, Greek, French, German or an approved Bantu

\* H. = higher grade; L. = lower grade.

§ The medium of instructn. in the teaching univs. is predominantly either Engl. or Afrikaans, viz. Engl. at the univs. of Cape Town, Natal, Rhodes and the Witwatersrand, Johannesburg, and Afrikaans at the univs. of the Orange Free State, Potchefstroom, Pretoria and Stellenbosch. The Univ. of South Africa conducts exams. in both media for external students and it has a division of external studies which provides correspondence tuition in both media.

lang.; (ii) as from Nov./Dec. 1962 a candidate must have passed in *either* 2 langs. plus maths. or 3 langs. if he does not pass in maths.

The four provincial depts. of educn. in the union (Cape, Natal, Orange Free State and the Transvaal), and the Dept. of Educn., Arts and Sci., conduct exams. for a sr. cert. on syllabuses approved by the bd. These exams. are recognized by the bd. for exemption from its own matric. exam. subject to conditions prescribed by the bd.

**FACULTY AND DEPARTMENTAL REQUIREMENTS.** Although the bd.'s matric. cert. or cert. of exemption is the normal requirement for admission to a univ., certain subjs. are prescribed by the univs. as prerequisites for enrolment in some depts. or facs. A student is advised to have a broad general educn. and to take for the matric. cert. at least 2 of the subjs., maths., Latin, Greek, French, German, in addn. to both official langs., i.e. Afrikaans and Engl. Maths. is essential for agric., archit., engin., for., med. and quantity surveying, and highly desirable for courses in accty., land surveying and sci. A knowledge of Latin of matric. standard is necessary for law. Further particulars of fac. and deptl. requirements should be obtained direct from the registrars of the individual univs., *not* from the Joint Matric. Bd.

**OVERSEAS EXAMINATIONS.** The bd. recognizes for purposes of exemption sch. certs. issued by a number of overseas bodies if the certs. entitle the holder to unconditional admission to an approved univ. in the country of origin and the subjs. passed and the standard attained are in accordance with the bd.'s regns. for its own matric. cert. As examples, a credit in a subj. for the Cambridge Overseas Sch. Cert. is accepted as equivalent to a '40 per cent. pass', and a pass in a subj. for the Higher Cert. of the Oxford & Cambridge Schs. Exam. Bd. and a pass at ordinary level in the General Cert. of Educn. are similarly accepted. Exemption is given subj. for subj. (Engl. lang. but not Engl. lit., is recog. as fulfilling the requirement for exemption from Engl.). The bd. is, however, not prepared to recognize a Bantu lang. of the Cambridge Overseas Sch. Cert. as equivalent to a Bantu lang. at a South African exam. The bd. may issue either a cert. of full exemption or a cert. of conditional exemption which may be converted into a cert. of full exemption if the holder fulfils specified conditions within a prescribed time. For full exemption on the strength of the Cambridge Overseas Sch. Cert. or the General Cert. of Educn., the bd.'s requirements include passes in 2 subjs. at principal or advanced level.

Overseas qualifs. recog. by the bd. incl.: the Sch. Certs. awarded by each of the 8 examining bodies in England and Wales recog. by the Ministry of Educn. for England and Wales (*see below*); the General Certs. of Educn. awarded, in and after 1951, by the same 8 examining bodies; the Higher Sch. Certs. of 6 of these examining bodies (i.e. Oxford & Cambridge Schs. Exam. Bd.; Northern Jt. Matric. Bd.; London Univ.; Oxford Local Exams. Delegacy; Univ. of Cambridge Local Exams. Syndicate; Central Welsh Bd.); inter. exam., 1st class, of Indian univs.; matric. or other entrance cert. of other approved univs.; leaving cert. of educn. depts. or secondary schs. entitling holder to admission to an approved univ.; leaving certs. of educn. depts. of Scotland and Eire; Sr. Cert. of Educn. Dept., N. **DENT. BChD:** knowledge of maths. equivalent to that of (O) level in a G.C.E. exam. necessary.

### Exemptions

In certain circumstances, applicants for admission to courses leading to the degrees of BA and BSc in spec. or gen. studies may be exempted by the bds. of the facs. concerned from 1-yr. courses and corresp. exams. if they possess qualifs. obtained in the G.C.E. exam. or other equivalent exam. of a sufficiently high standard. Exemptions will not be automatic and, in the case of BA applicants, will be granted only in exceptional cases. Subject to a min. attendance in this univ. of 2 yrs. and to the approval of the senate, members of other univs. which require residence as a condition of graduation may be permitted to count their studies and exams. (other than the final exam.) therein towards graduation in Leeds.

### Overseas Students

Applicants of foreign nationality, whether resident overseas or in the British Isles, should make applicn. through the embassy or educn. bureau of their govt. or through the British Council.

Applicants whose native lang. is not Engl. must, if they wish to read for a first degree, have obtained at least the pass mark in each of the following parts of the exam. for the Cert. of Proficiency in Engl. of the Univ. of Cambridge; *oral*—dictation, reading and conversation; *written*—(i) use of Engl., (ii) Engl. lang. (composition and a passage of Engl. with lang. questions). Applicants will, however, be considered from overseas students with equivalent qualifs. in Engl., e.g. a credit in Engl. in the Oversea Sch. Cert. of the

Univ. of Cambridge or a pass at the ordinary level in Engl. in the G.C.E. exam. of the Univ. of London.

### Last Date for Receipt of Applications

Applicns. from persons whose home is in the British Isles should be returned on the appropriate form by Jan. 31; applicns. received after that date will be considered if places are available. Applicants from persons resident outside the British Isles must be received before May 31.

## LIVERPOOL

Before admission to a degree course in the univ. a student must satisfy (a) the requirements of the Northern Univs. Joint Matric. Bd. (see above, p. 1360) and (b) any relevant fac. and deptl. requirements (see below).

No person may register as a student who will not have attained the age of 17 yrs. on or before Dec. 31 in the yr. for which entry is sought.

### Faculty and Departmental Requirements

**ARTS.** Applicants for admission to a course leading to the degree of BA must have passed in Greek or Latin or maths. at the ordinary or advanced level in the G.C.E. exam.

Candidates who have qualified in maths., but not in Greek or Latin, will be required: (a) For the degree of BA in gen. studies, to take not less than 5 courses of the 9 required from the following subjs.: geog., econ., econ. hist., sociol., pol. theory & instns., psychol. and philos. (b) For the degree of BA in spec. studies to present themselves in any one of the following 6 schs.: geog., econ., soc. sci., pol. theory & instns., psychol., philos.

**ARCHIT. AND COMM.** For admission to courses leading to BArch and BCom there are no requirements addtnl. to those of the Jt. Matric. Bd. (see above, p. 1360).

**SCI.** The amount of knowledge assumed as a basis for introductory courses will be as follows, in terms of the syllabuses given in the Joint Matric. Bd. publicn. *General Cert. of Educn.*, 1961:

**Pure maths.** Maths. (A) or further maths. (A) or pure maths. with statistics (A) or pure maths (A). Maths. (A) and further maths. (A) are preferred.

**Appl. maths.** Maths. (A) or further maths. (A) or pure maths. with statistics (A) or pure maths. (A) plus phys. (A or O).

**Phys.** For introductory standard, phys. (O); for all other standards, phys. (O) plus maths. (O) (syllabus B).

*Chem.* Chem. (O).\*

*Zool.* Nil.

*Bot.* Nil.

*Geol.* Nil.

**Exemption.** Exemption from the 1st yr. of a course of study in subjs. which are to be presented at the subsidiary, normal or higher standards, may be granted by the fac. to candidates who have passed in the G.C.E. exam. in 3 subjs. at the advanced level and have attained a standard deemed to be satisfactory in the subjs. concerned. These 3 advanced level subjs. need not necessarily be all scientific subjs. A standard higher than pass will be demanded in the 2 subjs. for which exemption is claimed. The syllabuses in terms of advanced level subjs. which are desired for entry into the 2nd yr. of study are as follows :

**Pure maths.** Further maths. or maths. plus further maths. Pure maths. for students taking subsid. pure maths.

**Maths. (pure and appl.).** Further maths. plus phys. or maths. plus further maths. Pure maths. with statistics may be considered in place of maths. or further maths.

**Phys.** Maths. plus phys., or maths. plus further maths. and phys.

**Chem.** For students taking higher chem.—chem. plus phys., and maths. or further maths. or maths. plus further maths. or bot. or zool. or biol. or geol. Chem. for students taking normal or subsidiary chem.

**Bot.** Bot. (biol. may be considered).

**Zool.** Zool. (biol. may be considered).

**Geol.** Geol. (geog. may be considered).

Applicants proposing to satisfy univ. entrance requirements by means of passes in general studies and in 2 other advanced subjs. may find it difficult to read for an honours degree in some schs. of the fac. in 3 yrs.

**MED.** There are no spec. addnl. requirements for entry to the fac. of med. It is not necessary for candidates to have taken sci. subjects at advanced level in the G.C.E. exam., but it is advisable that phys. and chem. should have been studied up to ordinary level, since the 1st MB courses are designed on the assumption that students have an elementary knowledge of these subjs. Passes at advanced level in phys., chem. and/or biol. (or bot. and zool.) may entitle a candidate to exemption from the corresp. courses and exam. of the 1st MB. Every endeavour is made to admit all eligible candidates direct to the 2nd yr. of studies, but sometimes the number of eligible candidates exceeds the number of vacancies. Those who cannot secure admission to the 2nd yr., even though they are eligible for complete exemption from the 1st MB, and those with partial exemption, are offered opportunities of attending courses of instructn. in other facs. to broaden their general educn. Students with exemption in phys. and chem. who complete 1st MB biol. by March are admitted to anat. classes during the summer term.

**Dent. surg.** There are no spec. addnl. requirements for entry to the sch. of dent. surg., but it is desirable that phys. and chem. should have been studied up to ordinary level in the G.C.E. exam., as the 1st-yr. course for the BDS is designed on the assumption that students have an elementary knowledge of these subjs. Candidates who have passed at advanced level in phys., chem., biol. or zool. are eligible for exemption from the corresp. courses and exams. for the 1st BDS. If a candidate has passed in all these subjs. at advanced level, he is eligible to commence 2nd-yr. studies.

**LAW.** The fac. will not regard with favour any applicant intending to become a solicitor or a barrister who, at the date of entry into the fac., does not possess the qualif. for exemption from the prelim. exam. of the Law Society or for admission as a student into one of the Inns of Court, as the case may be. Consequently, it is advisable for prospective applicants to acquaint themselves with the requirements of the appropriate professional body, in particular the articulated clerks regns., 1957.

**ENGIN.** Courses in the fac. of engin. are designed on the assumption that students have some previous knowledge of pure and appl. maths., phys. and chem. Candidates are recommended to present in the G.C.E. exam. at the advanced level (a) maths. & theoret. mechanics plus phys., (b) maths. plus phys. plus chem., or (c) maths. plus phys. plus 1 other subj. Where it is possible to present maths. with different alternatives, it is strongly recommended that an alternative which includes appl. maths. should be presented. All candidates are strongly recommended to study chem. to at least the ordinary level of the G.C.E. For admission into the dept. of metall. it is recommended that candidates present combination (b). Applicants from candidates with other suitable combinations of subjs. will be considered.

**Exemption.** The fac. will be prepared to consider for exemption from the 1st yr. of study and the inter. exam. candidates who have passed the exam. for the G.C.E. and whose performance in 1 of the preceding combinations of subjs. is satisfactory to the fac.

Candidates who have passed the G.C.E. exam. but have not reached a sufficiently high standard for exemption from the 1st yr. of study and inter. BEng exam. may be considered for such exemption, provided that they satisfy the examiners in pure maths. and appl. maths. separately in the inter. exam. before entering the univ.

All students entering the fac. are potential honours candidates. Separation into ordinary and honours degree streams normally occurs at the end of the penultimate yr. of the course.

**VET. SCI.** The fac. requires applicants to have attained a standard not less than that of a pass at the ordinary level of the G.C.E. in the separate subjs. of chem. and phys.

Exemptions are not granted in 1st-yr. subjs. passed at principal standard by holders of a Higher Sch. Cert. or at the advanced level in the G.C.E. exam.

### Overseas Students

Overseas students must apply for admission to the fac. or dept., with the exception of students from India and Egypt, who apply for admission through the following official bodies: *India*—the Educn. Office of the High Commissioner for India, Aldwych House, London, W.C.2. *Egypt*—the Egyptian Educn. Bureau, 4 Chesterfield Gardens, Park Lane, London, W.1.

Applicns. from overseas students for admission to the fac. of med., the sch. of dent. surg. or the fac. of vet. sci. must be received not later than Nov. 30 of the yr. preceding that in which admission is required; applicns. for admission to other facs. and schs. must be received not later than Jan. 31 of the yr. in which admission is required, and must be accompanied by detailed references certifying as to character and a detailed record of educnl. qualifs. No overseas student may be registered for entry upon a degree course until he has satisfied the entrance requirements of the Jt. Matric. Bd. and his admission has been approved by the senate. Overseas students must forward with their applicn. for admission a cert. of proficiency in written and spoken Engl., and must satisfy the fac. concerned that they have a knowledge of Engl. sufficient for undertaking their proposed course of study. Except by spec. permission of the senate, students normally resident outside Gt. Britain will not be admitted to classes or courses of study in the univ. unless assured of adequate financial support.

### Last Date for Receipt of Applications

Forms of applicn. should be obtained from the univ. and must be completed and returned by Jan. 31 of the yr. in which admission is sought with the exception of applicns. for admission to the fac. of med., the sch. of dent. surg. or the fac. of vet. sci., which should be received by Nov. 30 of the previous yr.

## MANCHESTER

The requirement of Latin may be waived for students entering by means of mature matric.

2. *Law*—Latin.

### Exemption

The 1st yr. of a degree course is an integral part of the course; in spec. cases, however, students may be admitted to the 2nd or subsequent yr. if they have satisfactorily attended relevant courses at another approved univ.

**ARTS.** Students entering an hons. degree course may be exempted from attendance and exam. in one course of inter. grade, if they have passed sufficiently well in the relevant subject at the advanced level in the G.C.E. exam. A standard considerably above the pass mark is required.

**MED. AND DENT.** Candidates who have been accepted for admission to the course for the degrees of MB ChB and who have passed in chem. or phys. or zool. or biol. at the advanced level in the G.C.E. will be exempted from the corresponding separate subj. or subjs. in the 1st MB ChB exam.

With the exception of foreign students, who may be allowed to substitute a course in Engl., every candidate for the degree of BA must incl. a lang. other than Engl. in the 1st yr. of the course. A knowledge of Latin is not compulsory for students who wish to read for a general degree, but a qualif. in Latin is required for entry to honrs. schs. of classics, Engl., French, Spanish, hist. For the gen. degree of BSc exemption from the inter. exam. is not granted in respect of passes in a G.C.E.

*Note.*—Higher and Sch. Cert. qualifs. equivalent to the qualifs. based on the G.C.E. will still be accepted by all facs.

*Overseas Students*

Students from Burma, Ceylon, Ghana, India, Iran, Iraq, Jordan, Pakistan, Saudi Arabia, Sudan, Thailand, Turkey, the United Arab Republic or British Colonial territories should apply for admission through the appropriate representative of their country in London. \*

No subj. may be counted at both the ordinary and the advanced level.

For the purpose of clause (c) above, candidates who offer 2 subjs. at advanced level chosen from subjs. nos. (2)-(20) must offer one subj. chosen from nos. (21)-(32); candidates who offer 2 subjs. at advanced level chosen from nos. (21)-(32) must offer one subj. chosen from nos. (2)-(20).

4. A credit obtained in a Sch. Cert. exam. or a pass at subsidiary standard obtained in a Higher Sch. Cert. exam. will, for the purpose of regn. 3 above, be regarded as equivalent to a pass at ordinary level in a G.C.E. exam. A pass at principal standard obtained in a Higher Sch. Cert. exam. will similarly be regarded as equivalent to a pass at advanced level in a G.C.E. exam.

#### *Requirements for Particular Courses*

**LETTERS.** A candidate qualified for matric. on the G.C.E. will not ordinarily be admitted to an hon. course for the degree of BA in classics, Latin, Greek, Engl., French, Latin and Engl. lit., Greek and Engl. lit., Latin and French, unless he has passed in Latin at advanced level in the G.C.E. (or in an exam. of equivalent standard approved for the purpose of this regn. by the senate), save that in certain circumstances a candidate who has passed in Latin at ordinary level may be admitted to the hon. course in French. A candidate will not ordinarily be admitted to an hon. course in German, Italian or mod. hist. unless he has passed in Latin at ordinary level (or in an exam. of equivalent standard approved for the purpose of this regn. by the senate), save that a candidate who has passed in hist. with foreign texts at advanced level may be admitted to the hon. course in mod. hist.

**SCI.** No spec. requirements.

**AGRIC. AND HORT.** A candidate intending to follow either the pass or hon. course in agric. or dairying or hort. is normally required to have gained, before entering the univ., one yr.'s practical experience of a type suitable to the particular course he proposes to follow. In the case of dairying, it is preferable that 6 mos. of the period should be spent on a dairy farm and 6 mos. in a dairy factory.

#### *Exemption from First-Year Courses and Exams.*

**LETTERS.** No exemption from the 1st univ. exam. in arts is permissible, except for grads. of approved univs.

**SCR.** A student may be totally exempted from the inter. exam. if he has obtained passes at advanced level in a G.C.E. exam. or exams. (or the equivalent in a London inter. or a Higher Sch. Cert. exam.) in the 3 subjs. which he proposes to offer in the general course and final exam. A student wishing to offer microbiol. in the general course must have obtained advanced level passes in chem. and in 2 of the subjs., phys., bot., zool.; if he wishes to offer psychol. in the general course he must have obtained advanced level passes in 3 of the subjs., incl. phys. or zool., that may be offered in the course. Exemption from 1 subj. of the inter. exam. may be given if a student has obtained a pass at advanced level in a G.C.E. exam. in that subj. If given such exemption from exam. in a subj. which he proposes to offer in the general course, he may nevertheless be required to attend a course in that subj.

**AGRIC. AND HORT.** Pass courses are provided in agric., hort. and dairying. First univ. exam. in agric.; the course and exam. are in 2 sections, section A consists of phys., chem., bot., zool. and geol. (the syllabuses for which are the same as those for the inter. exam. in the fac. of sci.), and section B of econ. and the hist. of agric. A student may be exempted from any subj. or subjs. of section A in which he has passed at advanced level in a G.C.E. exam. (or the equivalent in the London inter. or a Higher Sch. Cert. exam. or other approved exam.) on the following conditions:

(a) In the exam. he must offer at least one and not more than three of the subjs. of section A. A student who would need to offer more than three of those subjs. would be required to spend 2 yrs. on the course.

(b) A student intending to follow the pass course in dairying must normally offer phys. whether or not he is eligible for exemption from that subj.; he is not, however, required to offer geol.

(c) A student who has obtained a pass in biol. at advanced level in a G.C.E. exam. (or its equivalent) will normally be exempted from zool. in the exam.

**Hons. courses** are provided in each of the following subjs.: agric. sci., hortic. sci., agric., dairying, agric. bot., hortic. bot., agric. chem. (either in animal nutrition or in soil sci.), agric. econ. These courses are normally divided into yrly. parts; pt. I consists of the inter. exam., the subjs. of which are phys., chem., bot. and zool., save that a student following the hon. course in hortic. sci. or in agric. bot., or in hortic. bot. must offer geol. instead of zool. Total exemption from the inter. exam. may be granted on passes at the advanced level in a G.C.E. exam. in phys., chem., and one of the subjs. bot., zool., biol., maths., but all students entering for the hon. course in agric. bot. or in hortic. bot. or in hortic. sci. would normally be expected to have advanced level passes in phys., chem. and bot. for total exemption. Pts. II, III and IV consist of the course for the hon. subj. which extends over 9 terms. Thus

\* (O) = ordinary level; (A) = advanced level

a student who obtains total exemption from the inter. exam. can complete an honrs. course in 3 yrs.

### *Last Date for Receipt of Applications*

Applicns. for admission should, if possible, be submitted 1 yr. (but not earlier than 18 months) before the proposed date of entry. The closing date for applicns. is Jan. 31 of the yr. in which admission is sought.

(c) Candidates for admission to an honrs. course in hist. must satisfy the hd. of dept. that they have an adequate reading knowledge of Latin. (d) Candidates for admission to an honrs. course in music must satisfy the hd. of dept. that they have adequate executive ability in one practical subj. **Welsh National Sch. of Med.** It is not a condition of entry that a student should pass in any particular subj.

#### *Exemptions from Inter. Courses, etc.*

The BA honrs. course is one of 3 yrs., but students may be required to spend 4 yrs. over the course. Normally 3 passes at advanced level, and sometimes 2, ensure entry to a course requiring only 3 yrs.' pursuance. For entry to depts. the subjs. of which are not normally taught in schs., recognition is sometimes given to passes at advanced level in subjs. which are allied or considered to be suitable equivalents.

The BSc honrs. course is one of 4 yrs., but students may be exempted from the inter. course in subjs. passed at advanced level; this makes possible the completion of an honrs. course in 3 yrs. Admission to the 2nd-yr. course of subjs., which cannot usually be taken at sch., may be granted by virtue of advanced level passes in

subjs. regarded as allied or ancillary, e.g. admission is possible to 2nd-yr. courses in metall. and in engin. for those with advanced level passes in maths., phys. and/or chem.

Kinburn House, St. Andrews, Scotland

**Note.**—As from Feb. 1, 1962, new regns. relating to the acceptance by the bd. of passes in the Scottish Leaving Cert. exam. and in the Scottish univs. prelim. exam. will be introduced. Particulars from the secretary.

#### *Summary of Qualifications for Admission to Degree Courses in Scottish Univs.*

If there is no pass on the higher standard in a group III subj., there must be a pass in higher maths.

(3) Applicants who present General Certs. of Educn. issued by any of the examining bodies, 3-10 \* (and passes awarded by 11 \* in, and after,

1959), showing that passes have been obtained in subjs. recog. by the bd. that must incl. the following: (i) Engl. lang.; (ii) either maths. or a recog. sci.; and (iii) a lang. other than Engl. The subjs. recog. by the bd. are as follows. Group I: Engl. lang., Engl. lit.; geog.; and anc. hist., mod. hist. Group II: maths. (pure); appl. maths. There must be passes *either* in 6 such subjs., at least 2 of them having been awarded at advanced level, of which one must be a group II or group III subj.; *or*, if there are passes in only 5 such subjs., there must be 3 passes at advanced level, one at least from group II or group III and the 3 from not fewer than 2 of the groups. Three passes, incl. at least 2 at advanced level, must have been gained at one sitting. (Note.—The bd. gives notice that in and after 1962 it may cease to recognize advanced passes for the purpose of its regns. unless they are obtained at some prescribed grade above that of the minimum pass mark.)

**Note 1.**—Passes at ordinary standard in the London matric. exam., credits in English Sch. Certs. taken at home or overseas centres, or passes on the subsidiary standard in Higher Sch. Certs., will be treated as if they were passes at the ordinary level, and passes at main or principal standard in such certs. and passes in the inter. arts or inter. sci. exams. of the Univ. of London (including a pass gained under the spec. relationship scheme at a colonial univ. or coll.), as if they were passes at the advanced level in the G.C.E., if collectively they satisfy this rule. The following are also treated as if they were passes at the ordinary level: a very good pass or pass with credit obtained in the Sr. Sch. Cert. exam. or the G.C.E. exam. of the Educn. Dept. of Ceylon or a pass obtained in the Higher Sch. Cert. exam. of the Educn. Dept. of Ceylon; a pass at the ordinary level in the matric. exam. of the Univ. of Hong Kong.

**Note 2.**—A Sr. Cert. of the Ministry of Educn., N. Ireland, issued in 1952 or later, will be accepted if it contains passes in at least 6 subjs. recog. by the bd., incl. Engl. lang.; Engl. lit.; a lang. other than Engl. and a mathematical or scientific subj., on condition that 3 of the passes are at the advanced level, one of them being either in a lang. other than

Engl. or in a mathematical or scientific subj., and that all 6 passes have been gained at not more than two separate sessions of exam. A sr. cert. gained at one session of exam. may be supplemented by a pass or passes gained at one session of the matric. exam. of the Queen's Univ. of Belfast: a pass in this exam. will count as the equivalent of a pass at the advanced level in a cert. of 1952 or later yr. An applicant who has passed at not more than two sittings the matric. exam. of the Queen's Univ. of Belfast in Engl., maths., a lang. other than Engl., and in 2 other subjs. incl. in the groups mentioned in (3), qualifies for attestation.

(4) Passes at 50 per cent., or better, shown in a cert. qualifying the applicant for entry on a degree course in arts, pure sci. or med. at a recog. univ. of the Republic of Ireland, Canada, Australasia or of the Union of South Africa, if they are in subjs. recog. by the bd., will count (1) as passes at ordinary level if the holder completes his qualifs. by means of the G.C.E. exam. (clause (3) above), or (2) as passes on the lower standard if he completes by the Entrance Bd.'s prelim. exam. at any one session of that exam. (clause (2) above). Alternatively a cert. signed by the registrar of a recog. univ. in these countries stating that the applicant has completed satisfactorily the first 2 yrs. of a course leading to a degree in arts, pure sci. or med., and has duly passed in all the subjs. of his course up to that point, will qualify for the Cert. of Attestation. The bd. will not consider applicns. from persons who have failed to pass all the relevant exams. of the first 2 yrs. of an approved degree course, unless they can demonstrate that their failure is attributable to sp. circumstances, e.g. prolonged illness. In all such cases, applicants must submit full details accompanied by appropriate official evidence.

(5) Evidence of the satisfactory completion of the 2nd yr. of a course leading to a degree in arts or pure sci. or of the pre-med. course, of a univ. or coll. in the U.S.A. (other than a jr. coll.) appearing in the current list publ. by the American National Cttee. of Regional Accrediting Agencies, will qualify for the bd.'s Cert. of Attestation if the applicant's academic record shows grades averaging not below B in such of the following subjs. as have been incl. in the first 2 yrs. of his academic course: Engl., foreign langs., maths. (pure and appl.), sci., hist., geog., art and music.

(6) A sch. leaving, matric. or univ. entrance cert. awarded in any one of the following countries and qualifying unconditionally for entrance on a course leading to a degree in arts, pure sci. or med. in a recog. univ. of that country, is acceptable: (a) if it contains passes of 'satisfactory' (or higher) grade in 6 of the subjs. detailed in para. (3) above, and these incl. (1) the lang. of the country issuing the cert.; (2) a 2nd recog. lang.; and (3) either maths. or a recog. sci.; and (b) if at least 2 of these passes (which must incl. Engl. or a subj. of group II or group III [taken in the

written exam.]) are graded as 'very satisfactory'; and (c) on condition that it is supplemented by (1) a London Univ., or Cambridge Sr. Cert. of Proficiency in Engl.; or (2) a pass in spec. Engl. in the Entrance Bd.'s prelim. exam.; provided that exemption from this condition will be granted if the grade 'very satisfactory' has been awarded in Engl. (written and oral). A cert. that fails to satisfy clauses (a) and (b) of this rule for want of a 6th subj., or in respect of the grade of pass required in one subj. only, may be made good by a pass of the requisite standard in an appropriate subj. obtained either (1) in a subsequent session of the original exam., or (2) in the Entrance Bd.'s prelim. exam., in which the pass must be on the higher standard; or (3) in the English G.C.E. exam., in which the pass must be on the advanced level.

The countries are: Norway, Sweden, Denmark, Iceland, Holland, Belgium, France, Luxembourg, Switzerland, Western Germany, Italy, Spain, Portugal and Finland.

Full information as to the regns. for exams. The inst. was founded in 1927 by joint Anglo-French initiative to provide practical courses in French and English complementary to the instrcn. given in these subjects in the fac. of arts at the Sorbonne.

The dept. of Engl. organizes oral and correspondence courses for French univ. students of Engl. lang. and lit. (1st yr., *licence* and *agrégation* levels) and for the Cambridge exams. in Engl.

The dept. of French organizes courses from Oct. to June at school-leaving, undergrad. and res. levels, and Easter vacation courses for undergrads. and 6th-formers. For British students spending a yr. in French schs. as assistants, a short introductory course is organized in the autumn, and a correspondence course during the academic yr.

Membership of the Meyer-Sassoon library (15,000 vols.) and the students' club is open to all students of the inst., and applicns. are welcomed from other students from British univs. Advice

on lodgings is available for students attending the inst., and is offered when possible to other British students.

### BRITISH SCHOOL AT ROME

*Dir.*—J. B. Ward Perkins, CBE. *Postal address*: Accademia Britannica, Valle Giulia, Rome 51. *Hon. general sec.*—W. D. Sturch, 1 Lowther Gdns., London, S.W.7 (tel.: Kensington 3665).

The sch. was establd. in 1901 as a sch. of archæol. devoted to the study of the antiquities and hist. of Rome and Italy. In 1911 it was reconstituted to offer facilities also for practising students of archit., sculpture and painting. A royal charter of incorporation was granted in the following yr.

The sch. to-day includes 5 facs.: archæol., hist. & letters; archit.; painting; sculpture; engraving. The income of the sch. is derived partly from public funds, partly from the commissioners for the exhibition of 1851, and partly from subscriptions and donations from univs., colls., socs. and private individuals.

An annual Rome scholp. is offered in classical studies, in mediæval studies, and in each of the 4 facs. of the fine arts. Particulars of these and other scholps. attached to the sch. may be obtained from the hon. general sec. (*see above*).

The sch. is in no sense a teaching instn., and admission is normally restricted to winners of one of the above scholps. and to grad. students of the univs. and art schs. of the Commonwealth who are qualified to promote the objects of the sch. Accommod. is available for the staff and about 25 students. There is a library of some 30,000 vols. The *Papers of the British Sch. at Rome* provide an annual account of the more important archæol. and hist. researches of the sch.

### BRITISH SCHOOL OF ARCHÆOLOGY AT ATHENS

*Dir.*—M. S. F. Hood, MA, FSA. *Postal address*: British School of Archæology, Odos

Souedias 52, Athens. Sec.—Edith Clay, FSA, 31-34 Gordon Square, London, W.C.1 (tel.: Euston 8029).

The sch. was founded in 1866. Its first aim is to promote the study of Greek archæol. in all its depts., incl. the study of the hist., religion, art and life of ancient Greece as revealed by the monuments and the exploration of ancient and mediæval sites. Excavations in Greece have always been one of the principal activities of the sch., but it is also in the widest sense a sch. of classical studies, taking every period of Greek lang. and lit., from the earliest age to the present day, as its province. With these ends in view, the sch. co-operates with

univs., museums and other bodies in the United Kingdom and in other parts of the Commonwealth.

The sch. is largely residential. It admits holders of grad. studentships and travelling fellowships awarded by Commonwealth univs., and other persons who satisfy the managing cttee. that they qualify as students, including those of foreign univs. The academic session is from Nov. 1 to June 30. Students may begin work at any date but are normally required to reside for not less than 3 months.

The library contains some 20,000 archæol. and other books, together with maps, plans and photographs.

## COMMONWEALTH SCHOLARSHIP AND FELLOWSHIP PLAN

The Commonwealth Scholarship and Fellowship Plan was drawn up in Oxford in July 1959 at the Commonwealth Education Conference, a meeting of official delegates from the various countries convened by the United Kingdom government in accordance with a decision of Commonwealth Ministers at the Trade and Economic Conference held at Montreal in September 1958. The Montreal conference, in stressing the importance of education and training to the development of the different countries, had expressed the hope that they would be able to share with each other the advantages of education of all kinds and at all levels and had envisaged a scheme of 1000 scholarships, of which the United Kingdom undertook to provide one-half and Canada one-quarter. All the Commonwealth countries and most of the colonial territories were represented at the Oxford conference which, in addition to recommending arrangements for Commonwealth co-operation in such matters as technical training and the supply and training of teachers, worked out details of the proposed scheme of scholarships and fellowships. These constitute the Commonwealth Scholarship and Fellowship Plan, to which effect is being given by decisions of the various governments. It aims (as stated in the report of the conference) at enriching each country of the Commonwealth by enabling an increasing number of its abler citizens to share the wide range of educational resources available throughout the Commonwealth and thus at promoting equality of educational opportunity at the highest level.

The general basis of the Plan is that the government of every Commonwealth country may offer scholarships and fellowships tenable at its own universities, colleges and other institutions of higher education by men and women from the other countries; at Oxford announcements were made of initial offers of awards by certain countries, as follows:

United Kingdom	500
Canada	250
Australia	100
India	100
Pakistan	30
New Zealand	25
Federation of Malaya	12
Ghana	10
Federation of Rhodesia & Nyasaland	10
Ceylon	6
East Africa	4

It is provided that each 'receiving' country will be responsible for the administration of its own awards but that local assistance will be made available to it by appropriate authorities in the 'sending' countries where competitions for them are held; while the Plan is Commonwealth-wide, it is sufficiently flexible to take account of the diverse and changing needs of the several countries, and bilateral arrangements between them are contemplated.

In general there are two kinds of awards—*Commonwealth Scholarships* which are normally intended for young graduates of high intellectual promise who may be expected to make a significant contribution to life in their own countries on their return from postgraduate study overseas, but which may be awarded for undergraduate study in cases where facilities for such study are not available in the sending country; and *Commonwealth Visiting Fellowships* which are intended for a few senior scholars of established reputation and achievement. The main emphasis is on awards in the academic (including technological) fields but the possibility is not excluded of some awards to people outside these fields who play important roles in the life of their community.

The value of the awards is determined by each receiving country and is set out in its announcement inviting applications for them; in general it is expected that the emoluments will include fares to and from the receiving country, payment of tuition fees, allowances for books, special clothing and local travel, and a personal maintenance allowance. Scholars who are married may be granted additional marriage allowances by some countries. The normal period of tenure for a Commonwealth Scholarship is two academic years but this period may be made longer or shorter in particular circumstances. Scholars will be expected to return to their own countries at the end of their tenure.

By the end of 1960 practically all the countries which made initial offers of awards as mentioned above, and in addition Hong Kong, Malta and South Africa, had implemented them to the extent of announcing competitions in other countries for these awards, and in the case of some awarding countries the first group of their scholars had been selected and placed in universities and other institutions by the beginning of the current academic year. Already several countries have invited applications for the next year's awards, and competitions, with various closing dates according to

the requirements of the respective awarding countries, are proceeding throughout the Commonwealth along the general lines laid down at the Oxford conference. There has been wide interest in the scheme in every part of the Commonwealth, and while in the first year a large number of applications has been received by the several agencies, it is expected that this interest will continue to grow as the scheme develops.

The Commonwealth Scholarships offered by the United Kingdom—to take a single example of the form given to its competition by one awarding country—are tenable at its universities, colleges of technology and other educational establishments and are open to men and women under 35, preference being given to those in the 22–28 age range; only Commonwealth citizens and British protected persons are eligible to apply. These awards are offered in the other countries and territories on the basis of a series of 'notional quotas', the general understanding being that they will be shared in roughly equal proportions between the older countries of the Commonwealth, the more recently independent countries and the dependent territories. Other awarding countries have announced similar but not identical conditions; all of them publish their own notices for circulation in the countries from which applications by candidates are invited. These announcements (with closing dates) will normally be displayed in universities and colleges and (where appropriate) will appear in the local press.

Candidates for Commonwealth Scholarships offered by whatever receiving country are required to apply through the appropriate scholarship agency in their *country of normal residence*, i.e. a student who is already temporarily abroad in another country of the Commonwealth may not apply in that country for an award wherever tenable, but must lodge his application with the agency in the country where he ordinarily lives. It will then be considered in the local competition for awards offered by the particular receiving country. On the other hand, a citizen of one Commonwealth country who has established his permanent home in one of the other countries must, irrespective of his legal citizenship, submit his application in his adopted country and be judged in the competition with the other applicants there.

Each country in the Commonwealth has designated a local agency for the Commonwealth Scholarship and Fellowship Plan to handle (a) the preliminary selection for awards offered by other receiving countries and (b) the final selection from nominations submitted from sending countries for its own awards. These agencies also distribute to prospective candidates information papers and application forms for the various awards and will, generally speaking, be the best local centres of information about details of the Plan. At the beginning of January 1961, the list of those in the principal countries and territories with their

postal addresses stands as follows (in dependent territories not mentioned enquiry should be made at the principal education office):

## APPENDIX VII

# THE ASSOCIATION OF UNIVERSITIES OF THE BRITISH COMMONWEALTH

THE Association of Universities of the British Commonwealth is a voluntary association of institutions of university and university college standing in the various countries of the Commonwealth. It is incorporated as a limited company under the Companies Acts of the United Kingdom, its office being at 36 Gordon Square, London, W.C.1, and its membership in January 1961 comprising 124 universities and colleges. Any corporate body wishing to join the Association must apply to the executive council of the Association, whose practice is to consult the inter-university organization in the country concerned as to the academic standing of the applicant institution before deciding the question of admission.

The Association was established in 1912 as a result of the first Congress of the Universities of the Empire which was convened in that year by the University of London; one of the decisions of the delegates of the fifty-three home and overseas universities who attended was that a Bureau should be maintained in London by the contributions of the several universities for the purpose of disseminating information on all matters of common interest, including the publication of a yearbook and the summoning of future congresses at five-yearly intervals. In 1919 the Bureau was incorporated under licence of the Board of Trade and a grant was made by H.M. government for central offices on condition that the universities themselves undertook to provide adequate funds for maintenance. This building was destroyed in 1940, but new offices were provided after the war from the subscriptions of member universities which continue to be the main income of the Association as it is not in receipt of any government grant.

The affairs of the Association are controlled by an executive council elected each year at an annual general meeting of members. Each member institution is entitled to be represented at this meeting by its executive head (vice-chancellor, president or principal) or by a personal deputy whom he may appoint; the meeting elects a council of 16 members to represent member universities in the different countries, and a chairman, vice-chairman and honorary treasurer are appointed by the new council. In practice the

chairmanship is occupied by a university vice-chancellor or president chosen from the different countries of the Commonwealth in turn, usually with regard to the venue of any overseas meeting of the Association in the year concerned.

Since 1912 seven further congresses of universities have been held under the auspices of the Association—in 1921 at Oxford, in 1926 at Cambridge, in 1931 at Edinburgh, in 1936 at Cambridge, in 1948 at Oxford and in 1953 at Cambridge. The eighth Congress of Universities of the Commonwealth was held at McGill University, Montreal, in September 1958, and was the first of the series to take place outside the United Kingdom. These congresses, at approximately quinquennial intervals, are major events in the field of Commonwealth conferences on higher education, each member university being invited to send a representative delegation. The 1958 congress was attended by 385 delegates, 102 member institutions being represented. The 1963 congress will be held in London. The Association has, since the war, held a number of smaller conferences in various parts of the Commonwealth; these are usually in the form of a meeting of the executive council and consequently involve the visit to one academic centre of some 12 to 15 heads of universities from the other countries. Such meetings were held at Halifax, Canada, in 1949; at Wairakei, New Zealand, in 1950; at Madras, India, in 1952; at Kingston, Canada, in 1954; at Melbourne, Australia, in 1955; at Lahore, Pakistan, in 1956; at Johannesburg and Grahamstown, South Africa, in 1960; and in Hong Kong in 1961.

The Association's office in London has a full-time staff of twenty-six, and, besides acting as an information bureau and as a reception centre for visiting academic teachers and administrative officers, particularly those from universities overseas, undertakes on behalf of its member institutions any special business which they may desire to have transacted in Europe. Considerable sections of this work are in connexion with the assistance given to overseas universities in obtaining and investigating applications for advertised vacancies on their teaching staffs, and in connexion with the affairs of the Committee of Vice-

Chancellors and Principals of the Universities of the United Kingdom, of which the Association under a special financial arrangement provides the secretariat. Since 1959 the Association has been undertaking certain responsibilities in connexion with the Commonwealth Scholarship and Fellowship Plan (see p. 1411) particularly by providing the secretariat for the Commonwealth Scholarship Commission in the United Kingdom. The Association also provides the secretariat for the Marshall Aid Commemoration Commission which administers a scheme under which 24 scholarships are offered annually to U.S. graduates for study at U.K. universities. The staff performs its functions under the direction of the secretary and the deputy secretary, and includes several other graduates.

The *Commonwealth Universities Yearbook* has been produced regularly by the Association since its first issue in 1914 and is now a standard work of reference on the universities of the several countries, including those of the United Kingdom. Other recurrent publications of the Association are: *Higher Education in the United Kingdom: a Handbook for Students from Overseas* (Longmans

for A.U.B.C. and British Council); *Proceedings of the Quinquennial Congresses of Commonwealth Universities*; *Proceedings of the Home Universities Conferences*; *Annual Report of the executive council*; and *List of University Institutions in the British Commonwealth*. In addition the Association has published special reports such as *Applications for Admission to Universities* (report by R. K. Kelsall on an inquiry commissioned by the U.K. Committee of Vice-Chancellors and Principals), 1957; and the first (1958), second (1960) and third (1961) *Reports of an ad hoc Committee on Procedure for Admission of Students to U.K. universities*. Lists are also available of United Kingdom university term dates, academic visitors to the U.K. and postgraduate awards.

The formal constitution of the Association is set out in the memorandum and articles of association which were adopted and approved by the Board of Trade in 1932 in substantially their present form, though certain amendments have been made with the required approval at extraordinary general meetings following the congresses of 1936, 1948 and 1953 to give effect to minor changes desired by the representatives of member universities.

If a representative being the executive head of a Member ceases to hold the office by virtue of which he was nominated he shall cease to be the representative and the Member shall nominate his successor in such office as its representative.

7A. The representative of any Member may nominate in writing deposited with the Secretary a deputy to act for him during any period for which he gives notice in such writing; during such period for the purposes of these Articles any deputy so nominated shall be entitled to act as if he were the representative, and the Association shall be entitled to treat him as the representative, and anything done or suffered by him shall be deemed to have been done or suffered by the representative, whether (should the representative be at the time one of the persons appointed to the Executive Council) in relation to the business of the Executive Council or otherwise.

8. Any Member may withdraw from the Association by giving notice in writing to the Secretary before the expiration of any financial year, and on paying with such notice any unpaid subscription for the current year. Thereupon such Member shall be deemed to have ceased to be a Member from the date of the expiration of such financial year.

9. Upon the retirement of any Member by notice as stated in Article 8 the Member shall not be entitled to any repayment of any subscription or any part thereof paid for the current year.

10. The rights of any Member shall not be transferable and shall cease upon the Member failing to pay the annual subscription within twelve months of its becoming due. Any such Member may be readmitted to membership upon payment of the subscription for the year during which its membership lapsed.

#### DUTIES OF MEMBERS

11. Every Member of the Association shall be bound:

- (a) To pay to the Association such minimum annual subscriptions for the various classes of Members as may be fixed by the Association at its first General Meeting after the adoption of these Articles, and as may subsequently be fixed from time to time at Extraordinary Meetings held during the progress of Quinquennial Congresses, under the provisions of Article 35.
- (b) To observe the provisions of these presents and of the Memorandum of Association and all the bye-laws, rules and regulations of the Association for the time being in force.

#### COUNCIL OF THE ASSOCIATION

12. The Executive of the Association shall be a Council consisting of 16 persons chosen from among the representatives of Members so that Members of the classes specified in the second column of the following table and situate in each of the countries or groups of countries mentioned in the first column shall together be entitled to nominate the number of representatives respectively shown in the third column.

13. (a) The nominations required by Article 12 shall be made by such inter-University organizations as the Council shall by regulation declare to be appropriate to the said countries or groups of countries.

(b) The Association in General Meeting shall appoint the representatives so nominated to be members of the Council until the next General Meeting, when they shall be eligible for renomination and reappointment. If there shall be less than 16 nominations then the General Meeting shall appoint sufficient representatives to be members of the Council to complete that number having regard to the proportions set out in Article 12.

14. The office of a member of the Council shall *ipso facto* be vacated if his appointment as a representative of a Member is withdrawn by the Member appointing him, or if the Corporation appointing him ceases to be a Member of the Association.

15. Casual vacancies shall be filled by the Council from amongst the representatives nominated by Ordinary Members under the provisions of Article 7. The person so appointed shall hold office until the Annual Meeting next after his appointment, but he shall then be eligible for re-election if nominated in accordance with the terms of Article 13.

16. No act or resolution of the Council shall be invalidated by reason of the existence of any vacancy or vacancies among members of the Council, but if the number of members of the Council shall be reduced below 13 the continuing members may act for the purpose only of filling vacancies or summoning a General Meeting of the Association.

17. The Council shall manage and control all matters relating to the management and organization of the Association and may exercise all such powers of the Association as are not by the Companies Act, 1948, or by these Articles required to be exercised by the Association in General Meeting subject nevertheless to any regulation of these Articles, to the provisions of the said Act, and to such regulations being not inconsistent with the aforesaid regulations or provisions, as may be prescribed by the Association in General Meeting; but no regulation made by the Association in

General Meeting shall invalidate any prior act of the Council, which would have been valid if that regulation had not been made.

18. The Council may appoint, in consultation with the appropriate groups of Universities, special Committees to study and report on questions of interest to the Universities in more than one region of the Commonwealth and shall provide the necessary secretarial assistance for such Committees, but if such assistance involves exceptional expenditure, they may make it a condition of providing such assistance that a special subvention be made by the Universities concerned.

19. The Council shall study and report on, either by means of special Committees or otherwise as may be appropriate in each case, any questions referred to them by any Conference or Congress of Universities, but if exceptional expenditure is involved they may make it a condition of undertaking the inquiry that a special subvention be made by the Universities concerned.

20. The Council shall elect annually a Chairman of the Association and an Honorary Treasurer of the Association; and if the person appointed to be Chairman of the Association for any year represents a country other than the United Kingdom the Council shall for each such year appoint a Vice-Chairman of the Association who shall be a person resident in the United Kingdom. If the persons elected as Chairman, Vice-Chairman and Treasurer are not already members of the Executive Council they shall become members for the period during which they hold office.

20A. At every meeting of the Council the Chairman of the Association, if present, shall preside. If the Chairman of the Association is absent, then the Vice-Chairman of the Association shall preside. In the absence of the Chairman and Vice-Chairman, the members of the Council shall choose one of the members of the Council then present to preside at that meeting.

21. The Chairman of the Association and the Vice-Chairman of the Association may at any time, and the Secretary upon the request of six members of the Council shall, convene a meeting of the Council. Each member of the Council shall name an address at which all notices shall be served upon him, and all notices served at such address shall be deemed to be well served. Questions arising at any meeting of the Council shall be decided by a majority of members present and voting at such meeting. In the event of the votes being equally divided the Chairman shall have a second or casting vote.

22. The quorum for a meeting of the Council shall be five.

23. A meeting of the Council for the time being at which a quorum is present shall be competent to exercise all or any of the authorities, powers and discretions by or under the Articles of

Association for the time being vested in or exercisable by the Council generally.

24. The Council may delegate such of its powers as it considers desirable to any Committee consisting of members of the Council.

25. The meetings and proceedings of any such Committee shall be governed by the provisions herein contained for regulating the meetings and proceedings of the Council, so far as the same are applicable thereto.

26. The Council may from time to time appoint a Secretary of the Association and any other officers or servants who may be required for the performance of the business of the Association or of the Council and may from time to time appoint a temporary substitute for the Secretary who, in the absence of the Secretary, shall be deemed to be the Secretary.

27. All acts done by any meeting of the Council or by any person acting as a member of the Council shall notwithstanding that it shall be afterwards discovered that there was some defect in the appointment of the Council, or persons acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such person had been duly appointed and was qualified to be a member of the Council.

28. Without prejudice to the generality of the powers conferred upon the Council by Article 17 the Council may from time to time frame regulations (a) generally to give effect to the provisions of the Memorandum of Association and of these Articles and (b) particularly for the following purposes:

- (1) for admitting Universities which may hereafter become corporations;

- (6) for managing the business and defining the duties of the Association;
- (7) for delegating to Committees of the Council such of its powers as are not inconsistent with the provisions of these Articles;
- (8) for fixing the manner of the appointment of the special Committees referred to in Articles 18 and 19;
- (9) for arranging for the provision of secretarial assistance to such Committees; and for assessing any exceptional expenditure involved and distributing it amongst Universities concerned;
- (10) for determining the period for which the

Chairman, Vice-Chairman and Honorary Treasurer of the Association are to hold office ;

- (11) for defining the manner in which the Minutes of business transacted at meetings of the Association are to be recorded ;
- (12) for providing for the custody of the seal and for determining the officer of the Association other than the Secretary who may countersign instruments to which the seal is attached ;
- (13) for prescribing the form in which instruments appointing proxies shall be framed ;
- (14) for prescribing the books of account which have to be maintained in accordance with the provisions of Article 60 ;
- (15) for prescribing the place at which such books of account shall be kept.

Provided always that no regulation made by the Council shall have any validity or effect if it amounts to or involves such an alteration of or addition to these Articles as could only lawfully be made by Special Resolution.

#### MINUTES

29. The Council shall cause minutes to be duly entered in books provided for the purpose of all business transacted at General and Extraordinary Meetings and at meetings of the Council and Committees thereof.

30. Any such minutes of any meeting of the Council or of Committees thereof, or of the Association, if purporting to be signed by the Chairman of such meeting, or by the Chairman of the next succeeding meeting, shall be conclusive evidence of the matters stated in such minutes.

The Secretary shall at any time when required by the Chairman of the Association or in his absence abroad by the Vice-Chairman of the Association summon an Extraordinary Meeting.

38. Any requisition made by the Members of the Association entitled to vote as aforesaid shall express the object of the meeting proposed to be called and shall be left at the registered office of the Association.

39. Upon the receipt of such requisition the Council shall forthwith proceed to convene an Extraordinary Meeting and if they neglect to do so for twenty-one days from the time of the requisition being so left the requisitionists or any of them representing more than one-half of the total voting rights of all of them may themselves convene the meeting in the same manner as nearly as possible as that in which meetings are to be convened by the Council.

# GENERAL INDEX

[For index to the names of teaching staff and administrative officers, see pp. 1459-1590]

The General Index contains references to institutions, to subjects of study, and to such topics as Admission, Degrees, Vacation Courses, etc.

In each university entry in the book, only the *first* page on which a subject of study is mentioned is indexed, the several colleges, etc., of a federal university being treated as separate entries. This single reference is usually to a departmental heading, or bracketed subject beside a status, in the staff list, but a further (unindexed) mention of the subject may also be found in such paragraphs as 'First Degrees' or 'Diplomas' in the section of General Information for that university.

Although, under the heading of 'Medicine', a reference is given in the index to each medical school or faculty, subjects which normally form part of the course for a degree in medicine are not indexed separately. Such subjects are : anaesthetics, anatomy, bacteriology, dermatology, forensic medicine, gynaecology, obstetrics, ophthalmology, orthopaedics, oto-rhino-laryngology, paediatrics, pathology, physiology, surgery, tuberculosis, venereal diseases.

Similarly, although a reference is given in the index, under the heading of 'Dentistry', to each dental school or faculty, subjects which normally form part of the course for a degree in dentistry are not indexed separately.

The indexing of subjects which may be studied at all, or almost all, universities is limited to the indexing of references in the several national introductions. Such subjects are : biochemistry, biology, botany, chemistry, classics (Greek and Latin), economics (political economy), education, engineering (also civil, electrical and mechanical engineering), English, French, geography, geology, German, history, law, mathematics (also pure and applied mathematics), music, philosophy, physics, politics (political science), social studies, zoology. It should, however, be noted that the less common branches of these subjects (*e.g.* : agricultural chemistry ; music, African) are fully indexed in the way described in paragraph two above.
